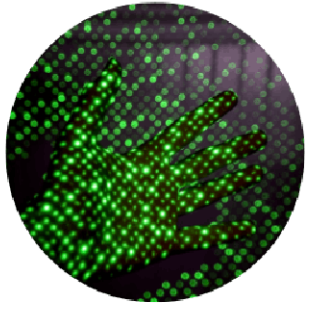
What is the Problem?

47% of today's **jobs will** be gone in 10 years *(The future of Work, Deloitte)*

Only 17% of employers feel students have a proficient grasp on career management



Research predicts the fastest rise in the need for advanced IT and programming skills, **which could grow as much as 90% (McKinsey)**

Researchers found that between 2016 and 2030, demand for social and emotional skills will grow across all industries **by 26% (McKinsey)**

What is My Problem

"**I** do not know where to **start**"

"**Change** is too **expensive** for **me**"

"I do not have **time**"

"There is not **support** and **guidance**"

> If the innovation of the past 20 years was defined by Human - Computer Interaction (HCI) then the next 50 years will be defined by Human - Human Interaction (HHI)

Society of the Future

What Should I do Next?

- Work on your tech literacy
- Enrol into online courses
- Become commercially aware
- Develop your emotional and social skills
- Stay on top of your mental health
- Be human!
