Important information regarding the Programme Specification

Last revised 20 April 2020

The Programme Specification gives a broad outline of the structure and content of the programme, the entry level qualifications, as well as the learning outcomes students will achieve as they progress. Some of the information referred to in this programme specification is included in more detail on the University of London website. Where this is the case, links to the relevant webpage are included.

Where links to external organisations are provided, the University of London is not responsible for their content and does not recommend nor necessarily agree with opinions expressed and services provided at those sites.

If you have a query about any of the programme information provided, whether here or on the website, registered students should use the ask a question tab in the student portal otherwise the Contact Us button on each webpage should be used.

Terminology

The following language is specific to the PGCert Learning and Teaching in Higher Education programme:

**Blended Learning:** A programme of study that is delivered by both face-to-face teaching and online delivery.

**Module:** Individual units of a programme are called modules. Each module is a self-contained, formally structured learning experience with a coherent and explicit set of learning outcomes and assessment criteria.

**Participant:** Those studying on the programme are referred to as participants. This is to acknowledge the wealth of experience individuals bring to the programme and to avoid confusion between ‘participants’ who are taking part in the programme and ‘students’ who they may be teaching whilst engaging with the programme.

**Weighted assessment:** Elements of assessment that receive a mark and are used in the calculation of overall module grades.

Key revisions made

Programme specifications are revised annually.

Where changes have been made which may impact on continuing students, these are listed below. For all new students, the programme and general information provided in this document is correct and accurate and will be applicable for the current year.

**Significant changes made to the programme specification**

The assessment criteria for Module 2 has been updated.
Programme title and name of award

Postgraduate Degrees of the University of London may be classified. The award certificate will indicate the level of the academic performance achieved by classifying the award. The classification of the degree will be based on the ratified marks from the completed assessments.

The classification system for this programme is as follows:

- Distinction
- Merit
- Pass

Specific rules for the classification of awards are given in the Programme Regulations under Scheme of Award.

Programme title

Learning and Teaching in Higher Education

Qualification title

Postgraduate Certificate in Learning and Teaching in Higher Education

Exit qualifications

There are no exit qualifications on this programme.

Individual modules

There is no provision for individual modules of the programme to be studied on a stand-alone basis.

Qualification title may be abbreviated as follows:

Postgraduate Certificate – PGCert

Level of the programmes

The Frameworks for Higher Education Qualifications of UK Degree-awarding Bodies (FHEQ) forms part of the UK Quality Code for Higher Education of the Quality Assurance Agency for Higher Education (QAA).

The award is placed at the following Level of the Framework for Higher Education Qualifications (FHEQ):

- PGCert: Level 7

Relevant QAA subject benchmarks group

See the QAA website for more information.

There are currently no QAA subject benchmarks for postgraduate education studies.

Awarding body

University of London
Programme Specification 2020–2021 Learning and Teaching in Higher Education (PGCert)

Registering body
University of London

www.london.ac.uk

Programme direction
University of London

Accreditation by professional or statutory body
Not applicable.

Language of study and assessment
English

Mode of study
Online learning supported by an online tutor.

Programme structures
The programme will have two registration points in the year corresponding with start dates for modules.

Participants have an online induction session available through the virtual learning environment (VLE) which they may access prior to the start of their study session. This will include orientation of their learning environment and guidance on the structure and learning expectations for the module.

A participant must pass both modules in order to be eligible for an award.

The PGCert consists of two compulsory modules:

- **Module 1** Supporting learning, teaching and assessment
- **Module 2** Enhancing learning, teaching and assessment.

Maximum and minimum periods of registration
The maximum and minimum period of registration, from a participant’s effective date of registration, are:

<table>
<thead>
<tr>
<th></th>
<th>Minimum</th>
<th>Maximum</th>
</tr>
</thead>
<tbody>
<tr>
<td>Postgraduate Certificate</td>
<td>1 year</td>
<td>Five years</td>
</tr>
</tbody>
</table>

Credit value of modules
Further information about the credit systems used by universities in the UK and Europe is provided by the [Quality Assurance Agency](http://www.qaa.ac.uk) and the [European Credit Transfer and Accumulation System](http://ec.europa.eu/education/credit-transfer/index_en.htm).
Programme Specification 2020–2021 Learning and Teaching in Higher Education (PGCert)

Where credits are assigned to the modules of a programme, credit indicates the amount of learning carried out in terms of the notional number of study hours needed, and the specified FHEQ credit level indicates the depth, complexity and intellectual demand of learning involved. The details below indicate the UK credits and the European Credit Transfer and Accumulation System (ECTS) values.

The Postgraduate Certificate in Learning and Teaching in Higher Education comprises a total of 60 UK credits (30 ECTS credits) at FHEQ level 7. The modules are each assigned 30 UK credits (15 ECTS credits).

One UK credit equates to a notional ten hours of study.

Entrance requirements

Applicants must submit an application in line with the procedures and deadlines set out on the website.

To register for the Postgraduate Certificate an applicant must:

- Have an undergraduate degree which is considered comparable to a UK degree, in any subject, from an institution acceptable to the University.
- Be currently teaching or supporting learning, on a part-time or full-time basis, on a higher education qualification.

English language requirements

A participant will meet the English language requirement if they:

- Have an ILETS score of 7 with no element below 6.5 or a demonstrably equivalent qualification.

Where an applicant does not meet the prescribed English language proficiency requirements but believes that they can demonstrate the requisite proficiency for admission the University may, at its discretion, consider the application.

All details of the programme-specific entry requirements are given on the programme page, under the Requirements tab.

Computer specification and internet access

All participants must have regular access to a computer (or mobile device*) with an internet connection to access the following resources:

- The Student Portal
- Participant record, module registration and examination entry
- Programme resources on the VLE
- The Online Library
- The Programme Specification and Regulations
- University of London email account.
To get the most from your studies, your computer should have at least the following minimum specification:

- a web browser (the latest version of Firefox, Chrome or Internet Explorer are recommended). This must accept cookies and have JavaScript enabled
- screen resolution of 1024 x 768 or greater
- sufficient bandwidth to access and upload video content
- the ability to play videos including sound and speakers

and the following applications installed:

- a word processor that accepts Microsoft Word formats (.doc and .docx)
- a PDF reader (e.g. Adobe)

Certain modules may have additional requirements, such as:

- video and audio recording capability, such as via web cam or other device
- microphone

* Full mobile access to VLE resources is not available for all programmes.

**Students with access requirements**

The University of London welcomes applications from disabled students and/or those who have access requirements. The University will make every effort to provide reasonable adjustments to enable those with a disability, learning difficulty or access requirements to have the same opportunity as all other students to successfully complete their studies.

The University is committed to managing the application procedure and the programme itself to ensure that services are accessible for all students and that an inclusive environment is created. Students with a disability, or others who may need access arrangements to assist in taking examinations, should complete the relevant section of the application form, or contact the Inclusive Practice Manager. A separate room or other arrangements may be considered.

Requests are considered by a University panel, whose purpose is to ensure that students with disabilities and/or specific access requirements are neither advantaged nor disadvantaged by such arrangements when compared with other students. These considerations remain separate from the academic selection processes.

For further information, see the Inclusive Practice Policy.

**Sources of funding and scholarships**

Information about potential sources of funding and scholarships is updated annually and where available is included in the prospectus web pages.

For further information see the [website](#).
Educational aims and learning outcomes of the programmes

Programme aims

The programme aims to develop professionals with the capacity to teach and support face-to-face, online and/or blended learning, and assess and give feedback on student work, in ways that are effective, efficient, reflective, scholarly and professional. This programme is delivered online and provides participants with the opportunity to engage with their own learning experience in the context of technology enhanced pedagogy.

Learning outcomes

By the end of this programme, participants will demonstrate the abilities, in relation to face-to-face, online and/or blended learning, to:

- Inform their practice with a critical understanding of theories of learning;
- Apply effective, efficient teaching and learning support strategies, informed by learning and research from a range of sources, including student feedback and outcomes;
- Critically reflect on their own learning experience and then develop their own teaching, learning support and assessment practice, using theory, feedback and other evidence;
- Undertake appropriate professional development, work collaboratively, support collaborative learning, and respect and value individual learners and members of diverse learning communities;
- Use and review a range of technologies to support learning.

Learning, teaching and assessment strategies

The core principles of the learning, teaching and assessment strategy for this programme are outlined below.

Principle 1: Ensuring participants are prepared for study

An online induction will ensure that participants are prepared for study and are familiar with the learning environment and sources of support during their studies.

Principle 2: An engaging and vibrant learning environment

All participants will have access to an online learning environment with learning support and tools enabling them to monitor their progress, assessing fulfilment of learning outcomes and development of skills-based outcomes throughout the curriculum.

Principle 3: Learning content

The learning content will be designed to provide participants with opportunities to engage, and encourage reflective and deep learning, with accessibility a key feature to enable participants to study across a range of mobile and media channels.

**Principle 4: Participant support**
All participants will have access to the learning environment, learning content, tools and activities related to their chosen programme of study. Participants will also receive support via their online tutor.

**Principle 5: Assessment**
A core feature of this programme will be a varied range of learning activities embedded within the content for each module, designed to provide feedback to participants on their progress towards the module and programme learning outcomes. Summative assessment methods will be designed to facilitate critical engagement with participant’s own professional development.

**Principle 6: Staff Development**
The design, development and delivery of this programme will be supported with training for:

- Academic teams involved in the development of the materials and assessment;
- Tutors

**Assessment methods**

Both of the Postgraduate Certificate modules are assessed by coursework.

In order to pass Module 1, you must obtain an overall combined weighted mark of at least 52% from the two assessment elements, with a minimum of 37% in element 1 and 52% in element 2.

In order to pass Module 2, you must submit element 1 in accordance with the instructions and deadlines provided and obtain a mark of at least 52% in element 2. Failure to submit element 1, *Topic proposal and scope*, will result in failure of the whole module.

Further details of the specific assessment methods can be found in the [Programme Regulations](#).

**Participant support and guidance**

Key features of the support for participants include:

- Induction resources.
- VLE containing: comprehensive learning materials; e-resources/e-library; participant forums and progress monitoring tools.
- Online tutor and online student relationship manager.
- Collaborative learning will be a key feature of this programme.
Quality evaluation and enhancement

The University of London delivers the majority of its flexible and distance learning programmes through a collaboration between the University of London Worldwide and member institutions of the University of London. However some of the flexible and distance learning programmes draw solely on academic input from the University of London, and are delivered without academic lead by a member institutions. The policies, partnerships (where applicable) and quality assurance mechanisms applicable for the programmes are defined in the following key documents: The Quality Framework, the Quality Assurance Schedules, Guidelines for Examinations, General Regulations and, for each programme, programme specific regulations.

Awards standards

All University of London qualifications have to align with the Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies to assure appropriate standards for each qualification. In addition, every programme that is developed by a member institution of the University of London (or a consortium with representation by more than one member institution) will be developed to the same standard as would be applied within the institution concerned. Proportionate and robust approval procedures, including external scrutiny and student engagement are in place for all programmes. Learning materials are written and all assessments are set and marked by academic staff who are required to apply the University's academic standards.

Review and evaluation mechanisms

Some of the key mechanisms in place to assure the standards of all University of London qualifications and the quality of the student experience, include:

- Annual programme reports: produced for all programmes in order to review and enhance the provision and to plan ahead;
- Independent external examiners: submit reports every year to confirm that a programme has been assessed properly and meets the appropriate academic standards;
- Annual student information statistics: prepared for all systematic reporting within the University of London;
- Periodic programme reviews: carried out every 4–6 years to review how a programme has developed over time and to make sure that it remains current and up-to-date.
- In the case of this specific programme, academic and professional oversight is provided by the University of London’s Centre for Distance Education.

Improvements are made as necessary to ensure that systems remain effective and rigorous.

Student feedback and engagement

The principal channel for collecting feedback from students is the Student Experience Survey. Carried out every two years, this collects feedback from the student body on a range of topics relating to the student lifecycle. The results are analysed externally and then considered in a number of different ways, including by the programme team, principal committees and the senior leadership team. Details of any resulting actions taken are published on the Virtual Learning Environment and the Student Portal.
Additionally, on completion of their programme of study students will be invited to take a survey that seeks to measure what they have gained from their studies.

There are also opportunities for students to get involved in governance. An undergraduate and postgraduate student member is appointed by the University to the majority of committees through an annual appointment round. Some programmes also recruit student members at the programme level. Students are frequently invited to take part in quality review processes such as Periodic Programme Reviews, Programme approval, Thematic Reviews, MOOC review panels and ad hoc focus groups. Opportunities such as these are advertised through social media and on the website. More information can be found on the website.

Students can also apply to join the Student Voice Group, which meets four times a year to consider initiatives for enhancing student experience. Notes from these meetings are published on the Student Portal.

After graduation

Further study

Successful completion of the programme may serve as preparation for participants who wish to go on to take further study in the subject area. Examples of further study can include a Masters in Education.

Graduate employment routes

This programme is designed to develop participants’ skills and knowledge in relation to their workplace. It deepens their understanding of the theories and enhances skills that apply to delivering higher education. The programme equips graduates to utilise this in online, blended or face to face learning. The programme has been developed with the UK Professional Standards as a guiding principle, see https://www.heacademy.ac.uk/ukpsf for further details.

Recognised Tutor Status

The University of London recognises the achievement of successful graduates from the Postgraduate Certificate Learning and Teaching in Higher Education by granting them University of London Worldwide Recognised Tutor Status. This includes receiving a certificate and diploma supplement.

University of London Worldwide Recognised Tutors, as successful graduates of the Postgraduate Certificate Learning and Teaching in Higher Education, have had the opportunity to:

- demonstrate enhanced skills, understanding of and strategies in teaching, learning and assessment in face to face teaching
- engage with successful digital and online learning through direct hands-on experience
- demonstrate enhanced skills in digital and online teaching
- work with colleagues across the globe, in a community of practice
- demonstrate a commitment to their own professional development
Recognised Tutor Status holders can choose to be included on our website listing and those working in University of London Recognised Teaching Centres, can be linked to their institution.

The Alumni Community

Upon finishing a course of study, students automatically become members of the University of London Alumni community, a diverse network of more than one million graduates over 180 countries, providing lifelong links to the University and to each other.

Alumni are encouraged to keep in touch after they graduate and to become active members of the alumni community; in return they receive a number of benefits and services, including an extensive programme of events and engagement opportunities.

More information is available on the alumni webpage.

Follow the alumni community on social media: Facebook, Instagram, LinkedIn
