Important information regarding the Programme Specification

About this document

Last revised 23 June 2021

The Programme Specification gives a broad outline of the structure and content of the programme, the entry level qualifications, as well as the learning outcomes students will achieve as they progress. Some of the information referred to in this programme specification is included in more detail on the University of London website. Where this is the case, links to the relevant webpage are included.

Where links to external organisations are provided, the University of London is not responsible for their content and does not recommend nor necessarily agree with opinions expressed and services provided at those sites.

If you have a query about any of the programme information provided, whether here or on the website, registered students should use the ‘ask a question’ button in the student portal. Otherwise, the Contact Us link at the bottom of every webpage should be used.

Terminology

The following language is specific to the Accounting and Financial Management programme:

**Module**: Individual units of the programme are called modules. Each module is a self-contained, formally structured learning experience with a coherent and explicit set of learning outcomes and assessment criteria.

Key revisions made

Programme specifications are revised annually. The quality committee of the member institution providing academic direction, as part of its annual review of standards, confirms the programme structure and the educational aims and learning outcomes, and advises on any development in student support. Where there are changes which may impact on continuing students, these are listed below. For all new students, the programme and general information provided in this document is correct and accurate and will be applicable for the current year.
Programme title and awards

Postgraduate Degrees of the University of London may be classified. The award certificate will indicate the level of the academic performance achieved by classifying the award. The classification of the degree will be based on the ratified marks from the completed assessments.

The classification system for these awards is as follows:

- Distinction
- Merit
- Pass

Specific rules for the classification of awards are given in the Programme Regulations, under Scheme of Award.

Programme title
Accounting and Financial Management

Qualifications
Master of Science in Accounting and Financial Management

Exit qualification only
Postgraduate Diploma in Accounting and Financial Management
Postgraduate Certificate in Accounting and Financial Management

An exit qualification is an intermediate qualification, [as noted above] for which the student may not have registered at the outset but which may be awarded on completion of specific modules/courses (or credit accumulated) in a longer programme of study, if the student leaves the programme. Exit qualifications are awarded at the discretion of the Board of Examiners and once a student has accepted an exit qualification they will not normally be permitted to continue their study of the same award with the University of London.

Individual modules available for study on a stand-alone basis
There is no provision for individual modules of the programme to be studied on a stand-alone basis.

Award titles may be abbreviated as follows:
Master of Science – MSc
Postgraduate Diploma – PGDip
Postgraduate Certificate – PGCert
Programme Specification 2021-2022 Accounting and Financial Management (MSc)

Level of the programmes

The awards are placed at the following Levels of the Framework for Higher Education Qualifications (FHEQ):

- MSc Level 7
- PGDip Level 7
- PGCert Level 7

Relevant QAA subject benchmarks group

See the QAA website for information about quality assurance.

Master's degrees in business and management (2015)

Awarding body

University of London

Registering body

University of London

Academic direction

University College London

Accreditation by professional or statutory body

Graduates of the programme who wish to continue their studies towards professional accreditation in the financial or accounting professions can benefit from ‘fast track’ agreements with one or more of the professional bodies listed on the programme page. See the organisations’ websites or contact them directly for details:

Language of study and assessment

English

Mode of study

Web supported learning with an online tutor.

Programme structures

The programme has two registration points in the year: October and April. There are four study sessions in a year, each lasting 10 weeks. Sessions begin in October, January, April and July. Each session is following by an assessment submission point.

Students have an online induction session available through the virtual learning environment (VLE) prior to the start of their study session. This includes orientation of their learning environment and guidance on the structure and learning expectations for the module.

The MSc is a 180 UK credit degree programme. For the MSc, you must complete
Ten compulsory modules (150 credits total)

- Financial Accounting Frameworks (FAF)
- Management Accounting Frameworks (MAF)
- Financial Management Essentials (FME)
- Advanced Financial Analysis (AFA)
- Advanced Management Accounting (AMA)
- Corporate Governance, Audit and Assurance (CGAA)
- Global Issues in Financial and Accounting (GIFA)
- Analysing Risk for Decision Making (ARDM)
- Issues in Investment Management (IIM)
- Capital Markets and Global Perspectives (CMGP)

One compulsory Capstone Project (30 credits)

Maximum and minimum periods of registration

The maximum and minimum period of registration, from a student’s effective date of registration, are:

<table>
<thead>
<tr>
<th></th>
<th>Minimum</th>
<th>Maximum</th>
</tr>
</thead>
<tbody>
<tr>
<td>MSc</td>
<td>One and a half years</td>
<td>Five years</td>
</tr>
</tbody>
</table>

In making a decision as to how many modules to register for in a given session, it is important to take account of on-going work and/or personal commitments.

You should register for Financial Accounting Frameworks (FAF), Management Accounting Frameworks (MAF), Financial Management Essentials (FME), Advanced Financial Analysis (AFA) and Advanced Management Accounting (AMA) before registering for the Capstone Project.

Credit value of modules

Further information about the credit systems used by universities in the UK and Europe is provided by the Quality Assurance Agency and the European Credit Transfer and Accumulation System.

Where credits are assigned to modules of a programme, credit indicates the amount of learning carried out in terms of the notional number of study hours needed, and the specified Framework for Higher Education Qualifications in England (FHEQ) credit level indicates the depth, complexity and intellectual demand of learning involved. The details below indicate the UK credits and the European Credit Transfer and Accumulation System (ECTS) values.

The MSc Accounting and Financial Management comprises a total of 180 UK credits (90 ECTS credits) at FHEQ level 7.

Recognition of prior learning

No recognition of prior learning (RPL) is permitted for this programme.
Entrance requirements

Applicants must submit an application in line with the procedures and deadlines set out on the website.

MSc

To qualify to register for the MSc you will need a bachelor degree which is considered at least comparable to a UK upper second class honours degree from an institution acceptable to the University.

English language requirements

All applicants must satisfy the English language requirements for the programme. These are set out in detail on the programme page under Entry Requirements.

Applicants who have not met any of the above must have passed, within the past three years, a test of proficiency in English language, from an organisation acceptable to the University. This standard must be reached before registering for the MSc.

Further information on English language proficiency tests can be found on our website.

Computer specification and internet access

Students will require regular access to a computer with an internet connection to use the University of London’s online resources and systems. A webcam may be required in the event that online timed assessments (if offered) are proctored, and in such a case, it is a student’s responsibility to ensure that they have a webcam.

For students to get the most from their studies, their computers should have at least the following minimum specification:

- a web browser (the latest version of Firefox, Chrome or Internet Explorer). This must accept cookies and have JavaScript enabled
- screen resolution of 1024 x 768 or greater
- sufficient bandwidth to access and upload video content
- the ability to play videos including sound and speakers

and the following applications installed:

- a word processor that accepts Microsoft Word formats (.doc and .docx)
- a PDF reader
- Microsoft Excel which can run macros

For Capstone Project, students will need one of the following supported platforms:

- Mobile platforms of iOS, Android and Windows 10 support:
  - iOS support OS version 8+
  - Android support API level 19+ Version 4.4 - 4.4.4
  - Windows 10 UWP version

And

Students with specific access requirements

The University of London welcomes applications from disabled students and/or those who have access requirements. The University will make every effort to provide reasonable adjustments to enable those with a disability, learning difficulty or access requirements to have the same opportunity as all other students to successfully complete their studies.

The University is committed to managing the application procedure and the programme itself to ensure that services are accessible for all students and that an inclusive environment is created. Students with a disability, or others who may need access arrangements to assist in taking examinations, should complete the relevant section of the application form, or contact the Inclusive Practice Manager. A separate room or other arrangements may be considered.

Requests are considered by a University panel, whose purpose is to ensure that students with disabilities and/or specific access requirements are neither advantaged nor disadvantaged by such arrangements when compared with other students. These considerations remain separate from the academic selection processes.

For further information, see Inclusive Practice Policy

Sources of funding and scholarships

Information about potential sources of funding and scholarships is updated annually and where available is included in the prospectus web pages.

For further information see the website.

Educational aims and learning outcomes of the programmes

Programme aims

The programme provides students with an opportunity to develop and apply master’s level knowledge, understanding and skills within an accounting, financial management and strategic context for business and management. In so doing, the programme engenders core financial knowledge, understanding and skills upon which are subsequently developed further in breadth and depth. The programme requires students to assimilate master’s level knowledge and demonstrate critical appraisal of alternative solutions to financial decision making based on systematic analysis of complex business problems. Additionally, implications for implementation and subsequent management of decisions will be explored. Students are also required to demonstrate independent research capability and present complex ideas through a range of different media appropriate to management professionals. Attainment of the programme aims will enable non-financial specialist managers within organisations to generate a portfolio of skills and abilities to potentially further professional development and career progression. Also, such attainment will benefit recent non-relevant (non-accounting/finance) graduates to build a platform on which career opportunities may be based.
Learning outcomes (MSc)

A student is expected to:

A  **Knowledge and understanding:**

Develop an understanding of financial ideas, models, and techniques appropriate for solutions to management challenges.

Understand and apply financial ideas and frameworks within the sphere of financial reporting, the arena of management accounting, and the field of financial management.

Understand the strategic dimension when applying specific financial models and techniques to support both decision making and routine operations.

Understand the complex internal and external relationships for organisations when management make decisions.

Apply research skills to support financial and strategic decision-making analysis.

Assimilate, identify, and critically appraise data used for financial decisions at a strategic level in organisations.

B  **Cognitive skills**

Think critically and creatively in selecting alternative solutions to finance-related challenges requiring decisions.

Think critically about the process of and outputs from financial reporting.

Solve problems to support and enact effective financial management.

Solve complex problems to support financial decisions.

Identify and evaluate options to solving business problems.

Undertake research into a financially related business problem and to apply skills in the assembling and analysis of data collected.

C  **Practical and professional skills**

Acquire and develop numeracy and quantitative skills to apply to business management.

Apply critical self-reflection to business practice and experience.

Communicate complex solutions effectively to business related decisions.

Use information technology effectively.

Demonstrate effective self-direction and efficient time management.

This specification provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if they takes full advantage of the learning opportunities provided. More detailed information on the specific learning outcomes, content and the learning, teaching and assessment methods of each module can be found in the module syllabuses.

*Learning, teaching and assessment strategies*

The core principles of the Standard Academic Model which incorporates the learning, teaching and assessment strategy for this programme are outlined below.
Principle 1: Access and opportunity
Our programmes are designed to maximise access and opportunity for learners. An online induction will ensure that students are prepared for study and are familiar with the learning environment and sources of support during their student journey.

Principle 2: Student learning
Our programmes are designed to provide students a rich, vibrant, rigorous and engaging learning experience.

Principle 3: Student support
Our programmes are designed to provide students with the support they need to succeed and fulfil their potential.

Principle 4: Programme and module structure
Our programmes follow a consistent structure, designed to drive progression and retention, and offer flexibility within an efficient module release schedule.

Principle 5: Design for learning
Our programmes are a co-creation between various teams who each contribute their professional expertise, and educational design for successful learning is at the heart of the programme development process.

Principle 6: Unbundling, portability
Wherever possible, our modules are designed as discrete sequences of learning for maximum use and portability.

Principle 7: Assessment
Our assessment is rigorous, robust, secure, transparent and aligned to the learning outcomes.

Principle 8: Equality, Diversity and Inclusion
Inclusion is at the heart of our practice in teaching, learning and assessment.

Assessment methods
Each module is run over a 10 week block, with the exception of the dissertation/project which is run over two 10-week blocks.

The following modules are assessed by two assessments: one online multiple choice question tests (MCQs) (25%) and an end of term coursework assessment (75%):

- Financial Accounting Frameworks (FAF)
- Management Accounting Frameworks (MAF)
- Financial Management Essentials (FME)
- Advanced Financial Analysis (AFA)
- Advanced Management Accounting (AMA)
The following modules are assessed by a coursework assessment (100%):

- Global Issues in Finance and Accounting (GIFA)
- Corporate Governance, Audit and Assurance (CGAA)
- Analysing Risk for Decision Making (ARDM)
- Issues in Investment Management (IIM)
- Capital Markets and Global Perspectives (CMGP)

The Capstone project is assessed by two assessments: a coursework (30%) and a project (70%).

Where a module has more than one element of assessment, the grade awarded for each module will be based on both elements of assessment. Students will be required to pass the module with a weighted average of 50%.

Resits may be taken once the module results have been confirmed by the Board of Examiners.

Coursework is submitted in the VLE by prescribed deadlines.

### Student support and guidance

Key features of the support for students include:

- **Student Portal**: for accessing student induction, study skills support, careers and employability resources, student wellbeing advice.
- Student induction resources.
- **Student Guide**: This provides information which is common to all students and gives guidance on a range of issues from the start of a student’s relationship with the University of London through to their graduation.
- VLE containing: self-assessment and student planner tools; comprehensive learning materials; e-resources/e-library; student forums and progress monitoring tools
- Online student advisor and online tutor
- **Programme Regulations**.
- **The Online Library**: This provides a range of full-text, multidisciplinary databases where journal articles, book reviews and reports can be found.
- A University of London email account and web area for personal information management.

### Quality evaluation and enhancement

The University of London delivers the majority of its flexible and distance learning programmes through a collaboration between the University of London Worldwide and member institutions of the University of London. However some of the flexible and distance learning programmes draw solely on academic input from the University of London, and are delivered without academic lead by a member institutions. The policies, partnerships (where applicable) and quality assurance mechanisms applicable for the programmes are defined in
the following key documents: The Quality Framework, the Quality Assurance Schedules, Guidelines for Examinations, General Regulations and, for each programme, programme specific regulations.

Awards standards

All University of London qualifications have to align with the Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies to assure appropriate standards for each qualification. In addition, every programme that is developed by a member institution of the University of London (or a consortium with representation by more than one member institution) will be developed to the same standard as would be applied within the institution concerned. Proportionate and robust approval procedures, including external scrutiny and student engagement are in place for all programmes. Learning materials are written and all assessments are set and marked by academic staff who are required to apply the University's academic standards.

Review and evaluation mechanisms

Some of the key mechanisms in place to assure the standards of all University of London qualifications and the quality of the student experience, include:

- Annual programme reports: produced for all programmes in order to review and enhance the provision and to plan ahead;
- Independent external examiners: submit reports every year to confirm that a programme has been assessed properly and meets the appropriate academic standards;
- Annual student information statistics: prepared for all systematic reporting within the University of London;
- Periodic programme reviews: carried out every 4-6 years to review how a programme has developed over time and to make sure that it remains current and up-to-date.

Improvements are made as necessary to ensure that systems remain effective and rigorous.

Student feedback and engagement

The principal channel for collecting feedback from students is the Student Experience Survey. Carried out every two years, this collects feedback from the student body on a range of topics relating to the student lifecycle. The results are analysed externally and then considered in a number of different ways, including by the programme team, principal committees and the senior leadership team. Details of any resulting actions taken are published on the Virtual Learning Environment and the Student Portal.

Additionally, on completion of their programme of study students will be invited to take a survey that seeks to measure what they have gained from their studies.

There are also opportunities for students to get involved in governance. An undergraduate and postgraduate student member is appointed by the University to the majority of committees through an annual appointment round. Some programmes also recruit student members at the programme level. Students are frequently invited to take part in quality review processes such as Periodic Programme Reviews, Programme approval, Thematic Reviews, MOOC review panels and ad hoc focus groups. Opportunities such as these are advertised through social media and on the website. More information can be found on the website.
Students can also apply to join the Student Voice Group, which meets four times a year to consider initiatives for enhancing student experience. Notes from these meetings are published on the Student Portal.

**After graduation**

**Further study**

Successful completion of the programme may serve as preparation for students who wish to go on to take further study in the subject area. Enquiries about further study opportunities should be directed to the University of London Student Advice Centre ‘ask a question’ button in the student portal.

**Graduate employment routes**

This programme is targeted at career minded individuals who wish to develop their professional skills with master’s level understanding and skills applied to accounting, financial management and strategic subject areas.

**The Alumni Network**

Upon graduation, students automatically become members of the University of London Alumni Network, a diverse community of over 100,000 alumni in more than 180 countries. The Alumni Network can provide individuals with lifelong links to the University of London and each other. Benefits include social and networking events, access to local groups, a bi-annual magazine, social networking groups, and the opportunity to become an Alumni Ambassador for the University of London.

Follow the alumni community on social media: [Facebook](#), [Instagram](#), [LinkedIn](#)
