IMPORTANT NOTICE FOR 2020-2021 ACADEMIC YEAR

Alternative Assessments during the Coronavirus (COVID-19) Outbreak

In these unprecedented times, the University has and continues to respond quickly to the impact of COVID-19, which has resulted in changes to our assessment processes.

In line with our current General Regulations, the University may offer you alternative assessments where necessary. This includes holding online timed assessments in place of written examinations, which are usually held at examination centres. Please note that this statement replaces any published information relating to assessments or written examinations in any of our materials including the website. Previously published materials relating to examinations should therefore be read in conjunction with this statement.

The University of London continues to work towards supporting the academic progression of all its students. The University also continues to be mindful of the health and wellbeing of its students during this pandemic, whilst protecting the academic standards of its awards.

Important information regarding the Programme Specification

About this document

Last revised 25 August 2020

The Programme Specification gives a broad outline of the structure and content of the programme, the entry level qualifications, as well as the learning outcomes students will achieve as they progress. Some of the information referred to in a programme specification is included in more detail on the University of London website. Where this is the case, links to the relevant webpage are included.

Where links to external organisations are provided, the University of London is not responsible for their content and does not recommend nor necessarily agree with opinions expressed and services provided at those sites.

If you have a query about any of the programme information provided, whether here or on the website, registered students should use the ask a question button in the student portal otherwise the Contact Us button on each webpage should be used.

Key revisions made

Programme specifications are revised annually. The LSE, as part of its annual review of standards, confirms the programme structure and the educational aims and learning outcomes, and advises on any development in student support. Where there are changes which may impact on continuing students, these are listed below. For all new students, the programme and general information provided in this document is correct and accurate and will be applicable for the current year.

Significant changes made to the programme specification 2020-2021:

Students first registering for a degree from 2020-2021 must attend a full- or part-time course of instruction at a teaching centre that is recognised to teach the programme.

2019-2020 was the last year students were able to first register without attending a recognised teaching centre. Students who are already registered in this way, without attending a recognised teaching centre may continue with their programme of study for the next 5 years in order to complete their degree.

Terminology

The following language is specific to the EMFSS BSc degrees:

Course: Individual units of the programme are called courses. Each course is a self-contained, formally structured learning experience with a coherent and explicit set of learning outcomes and assessment criteria.

Prerequisite: A course that must be passed before you are permitted to register for another particular course.

Co-requisite: A course that must be registered for and examined either before or at the same time as another course.
Programme title and qualifications

Undergraduate degrees of the University of London are awarded with Honours. The award certificate will indicate the level of the academic performance (Honours) achieved by classifying the award. The classification of the degree will be based on the ratified marks from the completed assessments.

The standard classification system for Bachelor’s degrees with Honours is:

First-Class; Upper Second-Class; Lower Second-Class; Third-Class.

A Pass Degree is a degree without Honours.

Specific rules for the classification of qualifications are given in the Programme Regulations, under Scheme of Award.

Programme title

Banking and Finance

Qualifications

Bachelor of Science Honours Degree in Banking and Finance

Exit qualifications

- Diploma of Higher Education
- Certificate of Higher Education

An exit qualification is an intermediate qualification, for which the student may not have registered at the outset but which may be awarded on completion of specific modules/courses (or credit accumulated) in a longer programme of study, if the student leaves the programme.

Exit qualifications are awarded at the discretion of the Board of Examiners and once a student has accepted an exit qualification they will not normally be permitted to continue their study of the same award with the University of London.

These exit qualifications are unnamed.

Individual courses

There is no provision for individual courses of the programme to be studied on a stand-alone basis.

Notes

The BSc degree in Banking and Finance is available through a 12 course Standard Route and a 9 course Graduate Entry Route.
Qualification titles may be abbreviated as follows:

Bachelor of Science – BSc
Diploma of Higher Education – DipHE
Certificate of Higher Education – CertHE

Level of the programmes

The qualifications are placed at the following Levels of the Framework for Higher Education Qualifications (FHEQ):

- Bachelor of Science Honours degree (BSc) Level 6
- Graduate Diploma Level 6
- Diploma of Higher Education (DipHE) Level 5
- Certificate of Higher Education (CertHE) Level 4

Finance

Awarding body

University of London

Registering body

University of London

Academic direction

The London School of Economics and Political Science (LSE)

Accreditation by professional or statutory body

Graduates of the BSc Accounting and Finance, BSc Accounting with Law and BSc Banking and Finance degrees who wish to continue their studies towards professional accreditation in the financial or accounting professions can benefit from ‘fast track’ agreements with one or more of the professional bodies listed below. See the organisations’ websites or contact them directly for details:

The Institute of Chartered Accountants in England and Wales (ICAEW)
The Institute of Singapore Chartered Accountants (ISCA)
Association of Chartered Certified Accountants (ACCA)
CPA Australia
Chartered Institute of Management Accountants (CIMA)
Language of study and assessment

English

Mode of study

Students are required to attend a full- or part-time course of instruction at a recognised teaching centre.

The University of London website provides an overview of teaching centres.

Programme structures

The Economics, Management, Finance and the Social Sciences programmes are comprised of courses. Each course is referred to as a ‘100 course’, ‘200 course’ or ‘300 course’, corresponding to the following levels of the Framework for Higher Education Qualifications (FHEQ):

- 100 courses are placed at FHEQ Level 4
- 200 courses are placed at FHEQ Level 5
- 300 courses are placed at FHEQ Level 6

Where half courses are indicated, two half courses are equivalent to one full course in terms of structure. For each programme, some courses are compulsory, whilst others can be selected from lists of options called ‘selection groups’.

The current structure can be found on the programme’s Structure page on the University of London website.

Where a student satisfies certain conditions, transfer may be permitted between different degrees and routes. A student registered on an EMFSS degree cannot transfer to the Certificate of Higher Education in Social Sciences or a Graduate Diploma, but would instead need to cancel their registration and submit a request for new registration on their chosen programme.

To be considered for the qualification of a BSc degree in the field of Economics, Management, Finance and the Social Sciences:

- For degrees through the Standard Route – a student must have attempted 12 full courses and must have passed with a mark of 40 or above at least eleven full courses.
- For degrees through the Graduate Entry Route – a student must have attempted and passed, with a mark of 40 or above nine full courses.

Maximum and minimum periods of registration

The maximum and minimum period of registration, from a student’s effective date of registration, are:

<table>
<thead>
<tr>
<th>Programme Type</th>
<th>Minimum</th>
<th>Maximum</th>
</tr>
</thead>
<tbody>
<tr>
<td>BSc (Standard Route)</td>
<td>Three years*</td>
<td>Six years</td>
</tr>
<tr>
<td>BSc (Graduate Entry Route)</td>
<td>Two years</td>
<td>Six years</td>
</tr>
</tbody>
</table>

*This period may vary if recognition of prior learning is permitted.

Study materials are made available after registration and on payment of the applicable fee.
Credit value of courses

Further information about the credit systems used by universities in the UK and Europe is provided by the Quality Assurance Agency and the European Credit Transfer and Accumulation System.

Where credits are assigned to each course of a programme, credit indicates the amount of learning carried out in terms of the notional number of study hours needed, and the specified Frameworks for Higher Education Qualifications of UK Degree-awarding Bodies (FHEQ) credit level indicates the depth, complexity and intellectual demand of learning involved. The details below indicate the UK credits and the European Credit Transfer and Accumulation System (ECTS) values.

For the Economics, Management, Finance and the Social Sciences suite of programmes, credits are assigned to the courses as follows:

- 30 UK credits or 15 ECTS credits for a full course at level 4, or 15 UK credits or 7.5 ECTS credits for a half course at level 4
- 30 UK credits or 15 ECTS credits for a full course at level 5, or 15 UK credits or 7.5 ECTS credits for a half course at level 5
- 30 UK credits or 15 ECTS credits for a full course at level 6, or 15 UK credits or 7.5 ECTS credits for a half course at level 6

One UK credit equates to a notional ten hours of study.

Recognition of prior learning

Recognition of prior learning is a generic term for the process by which we recognise and, where appropriate, award credit for learning that has taken place elsewhere, before entry onto this programme of study.

Where the prior learning covered a similar syllabus to a module/course studied elsewhere, credit will be awarded as if you took the University of London module/course. See the General Regulations (Section 3) and Programme Regulations for more rules relating to prior learning.

Details on how to apply for RPL can be found on our website.

This programme allows recognition of prior learning (RPL). A student studying a degree through the Standard Route may apply for RPL for up to four 100 courses. A student studying a degree through the Graduate Entry Route may apply for RPL for up to one 100 course named on the degree structure. No RPL is permitted for the Certificate of Higher Education in Social Sciences or the Graduate Diplomas.

To be eligible to apply for RPL a student must provide evidence to the University that they have already passed examinations that equate in level, content and standard to the 100 course(s) that form part of the programme. The qualification must have been awarded within the past five years preceding the application. If a student is awarded RPL they do not have to take that particular 100 course as part of their degree.
Entrance requirements

We consider qualifications from around the world. Details are available here and in the Qualifications for Entrance schedule.

The full list of EMFSS programmes can be found on our website. Entrance requirements are set out in detail under the 'Requirements' tab for each programme.

Applicants must submit an application in line with the procedures and deadlines set out on the website.

All entrance requirements are set out in detail on the programme page under the Requirements tab.

General Entrance requirements for undergraduate degrees

Age:

Applicants must normally be at least 17 years of age on or before 30 November in the year of initial registration.

Qualifications:

Applicants must have passed qualifications that satisfy category G in the Qualifications for Entrance schedule and the programme-specific requirements given on the Requirements tab on each programme page on the website.

Entrance requirements for the Graduate Entry Routes to the undergraduate degrees

Age:

Applicants must normally be at least 17 years of age on or before 30 November in the year of initial registration.

Qualifications:

Applicants must have successfully completed a full undergraduate degree from an acceptable institution and the programme-specific requirements given on the Requirements tab on the programme page on the website.

The Qualifications for Entrance schedule can be found on the University of London website.

English language requirements

Applicants must satisfy the English language requirements for the programme. These are set out in detail on the programme page under the Requirements tab for each programme.

Additional information on English language proficiency tests are given on the website.

Where an applicant does not meet the prescribed English language proficiency requirements but believes that they can demonstrate the requisite proficiency for admission the University may, at its discretion, consider the application.
Internet access and computer specification

Students will require regular access to a computer with an internet connection to use the University of London’s online resources and systems. A webcam may be required in the event that online timed assessments (if offered) are proctored, and in such a case, it is a student’s responsibility to ensure that they have a webcam.

The computer should have at least the following minimum specification:

- a web browser with Cookies and JavaScript enabled (a latest version of Firefox or Chrome is recommended);
- a good internet connection;

And the following applications installed:

- a word processor that accepts Microsoft Word formats (.doc and .docx);
- a pdf reader.

Students with access requirements

The University of London welcomes applications from disabled students and/or those who have access requirements. The University will make every effort to provide reasonable adjustments to enable those with a disability, learning difficulty or access requirements to have the same opportunity as all other students to successfully complete their studies.

The University is committed to managing the application procedure and the programme itself to ensure that services are accessible for all students and that an inclusive environment is created. Students with a disability, or others who may need access arrangements to assist in taking examinations, should complete the relevant section of the application form, or contact the Inclusive Practice Manager. A separate room or other arrangements may be considered.

Requests are considered by a University panel, whose purpose is to ensure that students with disabilities and/or specific access requirements are neither advantaged nor disadvantaged by such arrangements when compared with other students. These considerations remain separate from the academic selection processes.

For further information, see Inclusive Practice Policy

Sources of funding and scholarships

Information about potential sources of funding and scholarships is updated annually and where available is included in the prospectus web pages.

For further information see the website

Educational aims and learning outcomes of the programmes

Each of the programmes within the fields of Economics, Management, Finance and Social Science aims to offer a challenging, flexible scheme of study invigorated by research, which advances a student’s ability to develop academic and practical insights into the subjects studied. Students will be encouraged to develop a broad range of transferable and in some cases technical expertise.
Graduates of the programmes will have a sound basis for careers in a wide range of areas from major corporations to small businesses, government organisations, the voluntary sector, international organisation and the media.

Successful completion of a degree, with Honours, may allow a student to progress to postgraduate study in the degree field or a related area or to undertake further professional qualifications.

Within the programmes there is a natural progression between the levels. A student who passes the 100 courses (FHEQ Level 4) will have the essential introduction to that subject. The 200 and 300 courses (FHEQ Level 5 and 6) build on the 100 courses and provide opportunity to develop a more detailed understanding. Although the courses may not in themselves be more difficult, students will develop a greater understanding and a sophistication of thinking as they work through the courses.

The programmes aim to:

- promote independent critical and evaluative skills, and intellectual curiosity for life-long learning;
- expand knowledge and understanding of the chosen discipline;
- promote analytical, creative and imaginative engagement with theory, research and practice in the chosen discipline;
- encourage self-development into professionally organised and interactive individuals by practicing skills of selection, assimilation and communication.

**BSc Banking and Finance**

This programme aims to:

- provide students with an understanding of the ways in which financial intermediaries and institutions operate, and the structure and functioning of financial markets;
- give students knowledge about the pricing of financial assets, and why and how corporations issue various types of assets;
- provide students with an understanding of precisely how such intermediaries operate, both on a domestic level and in the international arena;
- provide students with an understanding of how banks (and other institutions) might use financial assets, for example derivatives, in risk management procedures;
- provide students with a well-rounded coverage of the major issues and areas of modern financial theory and practice.

The learning outcomes of the programme are as follows:

**Knowledge and understanding:**

Depending on the courses studied a student will be able to:

- communicate knowledge and understanding of several of the major contexts within which banking operates, based on a critical evaluation of related theoretical and conceptual frameworks and of empirical evidence as to its effects;
• communicate knowledge and understanding of, and appropriate ability to use and critically evaluate, current and major alternative technical languages and practices of banking and finance, together with appropriate ability to apply them;

• manipulate financial and other numerical data and appropriate understanding of and ability to apply mathematical and statistical concepts;

• communicate and apply knowledge and understanding of the principles of business information systems management to an appropriate level;

• analyse business activities and perform financial analyses and projections in appropriate contexts of planning, decision making and control to an appropriate level; and to recognise the limitations of these techniques;

• understand the pricing of financial assets and why and how corporations issue various types of assets;

• to demonstrate appropriate ability to communicate knowledge and understanding of financial management, risk and the operation of financial markets, based on critical evaluation of theories and empirical evidence.

**Intellectual and cognitive skills;**

A student will be able to:

• locate, extract, analyse and draw reasoned conclusions from multiple sources (including electronic sources) of appropriate literature and relevant data and acknowledge and reference sources appropriately;

• critically analyse arguments;

• assimilate and lucidly evaluate alternative views.

**Transferable skills;**

A student will be able to:

• communicate effectively in a written context;

• use information technology (spreadsheets, word-processing and online databases) appropriately;

• organise information, and to assimilate and evaluate competing arguments;

• manage their own learning, including working effectively to deadlines;

• be open minded and have a capacity to handle ideas and scrutinise information in critical, evaluative and analytical ways.

**Exit qualifications**

Students exiting with a Certificate of Higher Education would expect to:

• have the essential introduction to that subject;

• demonstrate an understanding on the concepts and principles related to their area of study; and

• be able to communicate ideas and findings in a reliable and structured way.
Students exiting with a Diploma of Higher Education would, in addition, expect to:

- develop a greater understanding and a sophistication of thinking as they work through the courses;
- build on their existing knowledge to approach the concepts and principles from a wider context;
- be at a stage where they will have obtained qualities and skills necessary for employment and further study in the area.

**Learning, teaching and assessment strategies**

Students are required to attend a full- or part-time course of instruction at a recognised teaching centre. The study materials provided are supplemented by tuition offered by the teaching centre. The University of London does not provide tuition.

For all registered students, subject guides are provided for each course studied. The subject guides include tools to assist a student in the development of the skills of information search, comprehension and analysis and the generation of original and thoughtful assignments. Subject guides offer advice on how to use the recommended textbooks which form the focus of the student’s studies. A student is required to buy these textbooks themselves.

Advice and practical information such as study techniques, planning, preparation for assessment is available in the specially prepared guide Strategies for success.

A student may communicate with others on a free web-based Virtual Learning Environment. Students will have access to course materials, and be able to engage in dialogue and develop and negotiate conclusions with others – key components in the acquisition of knowledge, understanding and transferable skills.

Written examinations form the greater part of the assessment of the programmes. For each course students will be assessed mainly by written examination. Questions are structured to allow students to demonstrate that they have acquired appropriate knowledge and understanding. The way that students manage data, solve problems, evaluate ideas and the organisational skills they use to structure their written answers allows the standard of intellectual and transferable skills to be assessed.

Assessment criteria for the programme take into account the level at which these skills have been achieved.

**Assessment methods**

Aside from a few exceptions, each full course is examined by one three-hour unseen written examination and each half course by one two-hour unseen written examination. The assessment of some courses also involves the submission of coursework or a project – in these cases, details are included as part of the course syllabus.

The written examinations take place on one occasion each year, normally commencing in May. These are held at established examination centres worldwide.

Full details of the dates of all examinations are available on the [website](https://www.uol.ac.uk).
Student support and guidance

- **The Virtual Learning Environment (VLE)**: this gives access to materials for each course, including tutorial activities, study support resources and access to the programme of EMFSS webinars.

- **Programme Handbook**: this provides general information about the EMFSS programmes, including an overview of key policies and procedures.

- **Student Guide**: This provides information which is common to all students and gives information about matters of importance from the start of a student’s relationship with the University of London through to their graduation.

- **Student Portal**: for accessing student induction, study skills support, careers and employability resources, student wellbeing advice.

- Subject guides for each course which introduce and develop the topics

- Recommended reading lists are provided online. Students may need to buy their own textbooks or use copies provided by their teaching centre.

- Online discussion areas which allow students to communicate with each other.

- Past examination papers and examiners' commentaries. These provide an indication of the format of examinations and course-level feedback on completed assessments.

- Programmes Regulations: these are a set of rules which apply to your programme – students are responsible for ensuring they are familiar with the regulations for their programme.

- **The Online Library** provides a range of e-books, along with full-text and multidisciplinary databases where journal articles, book reviews and reports can be found. The Online Library also has a dedicated homepage for EMFSS students.

- **University of London library**: Registered students may use the resources located within the Senate House library (for a small additional fee).

- A University of London email account and web area for personal information management.

Students must make their own arrangements to study with teaching centres which may provide full-time or part-time classes.

Attendance at a teaching centre is a requirement for students first registering on the degrees or Graduate Diplomas from 2020-21.

Quality evaluation and enhancement

The University of London delivers the majority of its flexible and distance learning programmes through a collaboration between the University of London Worldwide and member institutions of the University of London. However some of the flexible and distance learning programmes draw solely on academic input from the University of London, and are delivered without academic lead by a member institutions. The policies, partnerships (where applicable) and quality assurance mechanisms applicable for the programmes are defined in the following key documents: The Quality Framework, the Quality Assurance Schedules.
Guidelines for Examinations, General Regulations and, for each programme, programme specific regulations.

Awards standards

All University of London qualifications have to align with the Frameworks for Higher Education Qualifications of UK Degree-Awarding Bodies to assure appropriate standards for each qualification. In addition, every programme that is developed by a member institution of the University of London (or a consortium with representation by more than one member institution) will be developed to the same standard as would be applied within the institution concerned. Proportionate and robust approval procedures, including external scrutiny and student engagement are in place for all programmes. Learning materials are written and all assessments are set and marked by academic staff who are required to apply the University's academic standards.

Review and evaluation mechanisms

Some of the key mechanisms in place to assure the standards of all University of London qualifications and the quality of the student experience, include:

- Annual programme reports: produced for all programmes in order to review and enhance the provision and to plan ahead;
- Independent external examiners: submit reports every year to confirm that a programme has been assessed properly and meets the appropriate academic standards;
- Annual student information statistics: prepared for all systematic reporting within the University of London;
- Periodic programme reviews: carried out every 4-6 years to review how a programme has developed over time and to make sure that it remains current and up-to-date.

Improvements are made as necessary to ensure that systems remain effective and rigorous.

Student feedback and engagement

The principal channel for collecting feedback from students is the Student Experience Survey. Carried out every two years, this collects feedback from the student body on a range of topics relating to the student lifecycle. The results are analysed externally and then considered in a number of different ways, including by the programme team, principal committees and the senior leadership team. Details of any resulting actions taken are published on the Virtual Learning Environment and the Student Portal.

Additionally, on completion of their programme of study students will be invited to take a survey that seeks to measure what they have gained from their studies.

There are also opportunities for students to get involved in governance. An undergraduate and postgraduate student member is appointed by the University to the majority of committees through an annual appointment round. Some programmes also recruit student members at the programme level. Students are frequently invited to take part in quality review processes such as Periodic Programme Reviews, Programme approval, Thematic Reviews, MOOC review panels and ad hoc focus groups. Opportunities such as these are advertised through social media and on the website. More information can be found on the website.
Students can also apply to join the Student Voice Group, which meets four times a year to consider initiatives for enhancing student experience. Notes from these meetings are published on the Student Portal.

**After graduation**

**Further study**
Successful completion of an EMFSS programme may serve as preparation for students who wish to go on to take further study in the subject area – whether to be undertaken at LSE or elsewhere.

Successful completion of a degree may allow a student to progress to postgraduate study in the degree field or a related area or to undertake further professional qualifications.

**Graduate employment routes**
Graduates of the EMFSS programmes will have a sound basis for careers in a wide range of areas from major corporations to small businesses, government organisations, the voluntary sector, international organisation and the media.

BSc Banking and Finance graduates may particularly consider the following areas:

- Accountancy professions
- Consulting
- Commercial banking
- Investment
- Sales
- Banking
- Trading
- Risk management

**The Alumni Network**
Upon graduation, students automatically become part of the University of London alumni community, a diverse global network of more than one million graduates in over 180 countries, providing lifelong links to the University and to each other.

Alumni are encouraged to keep in touch after they graduate and to become active members of the alumni community; in return they receive a number of benefits and services, including an extensive programme of events and engagement opportunities.

More information is available on the alumni [webpage](#).

Follow the alumni community on social media: [Facebook](#), [Instagram](#), [LinkedIn](#)
