Important information regarding the Programme Regulations

About this document

Last revised: 09 September 2016

As a student registered with the University of London you are governed by the General Regulations and Programme Regulations associated with your programme of study.

The Programme Regulations are designed and developed by the Lead College responsible for the programme and they normally take account of the associated arrangements within the Lead College. Programme Regulations, together with the Programme Handbook, will provide the detailed rules and guidance for your programme of study. Further information about how to use the Programme Regulations and Programme Handbook can be found in the Student Guide.

In addition to programme regulations you will have to abide by the General Regulations. These regulations apply to all students registered for a programme of study with the International Academy and provide the rules governing registration and assessment on all programmes; they also indicate what you may expect on completion of your programme of study and how you may pursue a complaint, should that be necessary.

Programme Regulations should be read in conjunction with the General Regulations.

A Glossary provides an explanation of the terms used in this document.

If you have a query about any of the programme information provided please contact us. You should use the ask a question tab in the student portal https://my.londoninternational.ac.uk.

Changes to CeFiMS Regulations 2016-17

Registration for the MSc and Postgraduate Diploma in International Management (China) and for Structure B MSc degrees in Finance (Economic Policy), Finance (Financial Sector Management), Public Policy and Management, Postgraduate Diploma in Public Financial Management has been discontinued. The last examinations will be held in 2017.

Registration for the MBA and Postgraduate Diploma in Banking has been discontinued. The last examinations under Structure A will be held in 2019, and under Structure B will be held in 2017. The new pathway MSc Finance: Banking has been introduced and will run for the first time this year.

1 Structure of the programmes

1.1 For the following programmes two different structures – Structure A and Structure B – are in operation:

- Finance (Economic Policy)
- Finance (Financial Sector Management)
- Public Policy and Management
- Postgraduate Diploma in Public Financial Management
- MBA Banking and Postgraduate Diploma in Banking

If you registered from 1 November 2012 and later you will follow Structure A. If you registered before 1 November 2012 you will follow Structure B.

1.2

- Registration for Structure B has been discontinued. The last examinations for modules under this structure will be held in 2017.
- Registration for the MSc and Postgraduate Diploma in International Management (China) has been discontinued. The last examinations will be held in 2017.
- Registration for Structure A of the MBA Banking and Postgraduate Diploma in Banking has been discontinued, the last examinations for modules under this structure will be held in 2019.

1.3 If you are registered for a programme under Structure B you may apply to transfer to the related Structure A by writing to the Centre for Financial and Management Studies (CeFiMS), SOAS. All such applications will be considered on their merits; permission to transfer and any credits awarded will be at our discretion.

2 Registration

Effective date of registration

2.1 Your effective date for registration will be at the beginning of one of the five study sessions available for study. This will be 1 November if you register between September and October, 1 January if you register between November and December, 1 March if you register between January and February, 1 May if you register between March and April and 1 July, if you register between May and June

2.2 You will be permitted to sit an examination at the next opportunity after your effective date of registration, this will usually be in October.
Period of registration

See the Programme Specification for the minimum and maximum periods of registration applicable to this programme.

2.3
A Postgraduate Diploma or MSc student may apply for an extension of their registration for one additional year only, subject to any notice periods given on programmes as outlined in section 1.2. The Registration Extension form can be found on www.cefims.ac.uk

Individual professional award

2.4
If you start by taking an Individual professional award or awards and then register for the Postgraduate Diploma or MSc we will give you a new maximum period of registration for the Postgraduate Diploma or MSc.

See Glossary for the definition of ‘effective date of registration’.

3 Recognition of prior learning and credit transfer

To be read in conjunction with the General Regulations, Section 3.

Credit transfer

3.1
If you are registered for an MSc, MBA or Postgraduate Diploma, at the discretion of the Programme Director, you may carry one module across to another programme, which must also be covered by these regulations. The carried module must not have been used as credit towards any qualification already awarded.

Accreditation of prior learning

3.2
Within these programmes there is no provision for accreditation of prior learning.

4 Module selection

Appendix A provides details of the programme structures and module titles.

4.1
Modules are run in five sessions throughout the year. You may normally only register for one module per session. Each module is normally available at least twice in a twelve-month period but they are not offered at any particular time during the year.

4.2
You will be able to enrol for up to five modules throughout the year. Module enrolment and payment of module fees must be made by the given deadline.
4.3
You may apply to change your choice of a module. However, if you have already received study materials for the module concerned your application will not be considered.

See section 6 for information on changing a module if you receive a fail mark.

**Individual professional awards**

4.4
You may take up to three credit-bearing modules (no more than one module per study session) on a stand-alone basis without being registered for a degree or postgraduate diploma.

See Appendix B for a list of Individual Professional Awards

Module enrolment can be completed online at [www.cefims.ac.uk](http://www.cefims.ac.uk)

**5 Assessment for the programme**

5.1
Each module for the awards listed in these regulations, with the exception of the Dissertation module, will be assessed by one three-hour unseen written examination and by the submission of two tutor marked assignments.

5.2
Tutor marked assignments should be 2,500 words in length. The word count excludes footnotes (provided they contain a reference and are not part of the assignment answer), endnotes, bibliography and figures. Tables which contain text will be included in the total word count, whilst tables which contain numerical data will not.

If an assignment exceeds the word limit by the specified amount, we will implement the following deductions:

<table>
<thead>
<tr>
<th>Excess Length</th>
<th>Mark Deduction</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to and including 10%</td>
<td>5 Marks</td>
</tr>
<tr>
<td>More than 10% up to and including 20%</td>
<td>10 Marks</td>
</tr>
<tr>
<td>More than 20% up to and including 30%</td>
<td>15 Marks</td>
</tr>
<tr>
<td>More than 30%</td>
<td>The work should not be submitted. It would not be marked and would be assigned a grade of 0</td>
</tr>
</tbody>
</table>

5.3
You cannot sit the timed written examination for a module unless you have completed all the compulsory tutor marked assignments for that module. If you sit a timed written examination for a module for which you have an incomplete assignment record you will be judged not to have completed the examination and will receive no mark for your performance in the timed written examination.
5.4
The grade awarded on each module will be based on the mark obtained in the timed written examination and on the combined mark for the assignments. The examination mark and the combined mark of the tutor marked assignments will be weighted on the scale 70:30.

5.5
There will be a notice period for you to complete the assessment for a module which has been significantly changed, based on the module outline in use at the time of your registration.

5.6
You must submit completed assignments via the Online Learning Environment no later than the submission dates given on the module timetables. Tutor marked assignments that are submitted late may be subject to penalties and be returned unmarked. This could affect your eligibility to sit examinations.

5.7
It is your responsibility to retain a copy of your assignment in the event of any electronic difficulties in its submission to, or return from, the University.

**Assessment methods for the MSc degree**

See [Glossary](#) for the definition of ‘examination’ and ‘written examination’.

5.8
The **Dissertation** module (elective for MSc degrees only) will be assessed by submission of a written dissertation, relating to both theory and policy issues, of not more than 10,000 words, excluding the bibliography and appendices. With the exception of MSc Finance (Quantitative Finance), if you wish to write a dissertation you are required to successfully complete the tutor marked assignments for the **Research Methods** module before proceeding to the **Dissertation**.

5.9
You are strongly advised to submit a draft of your dissertation before submission of the final version. However, the **draft dissertation** will not form part of the final assessment.

5.10
You must submit an electronic copy of a completed dissertation, via the Online Learning Environment, to arrive not later than **1 October** in the year of registering for the dissertation.

See the website for the [list of examination centres](#).

**Dates for examinations**

5.11
Written examinations take place in October each year.

See [General Regulations](#) Rules for taking written examinations

**6 Number of attempts permitted at an examination**

6.1
The maximum number of attempts permitted at any timed written examination is two.
6.2
You will not be permitted to resubmit tutor marked assignments and the mark obtained on the first occasion will be carried forward to the final result.

6.3
If you are required to re-sit an examination it will be at our discretion if you can take further modules at the same time as the re-sit examination(s).

6.4
If we decide that your dissertation requires minor amendment, we will specify what amendments must be made and by when you must re-submit the dissertation. If the dissertation is failed completely, you will be required to make a fresh application for approval of a topic and offer a new or re-written dissertation at a subsequent examination.

6.5
If you pass the written examination for a module but receive a ‘Fail’ for the module overall, and you are yet to satisfy the conditions for the award, we may allow you to drop that module and replace it with an alternative module from within the programme. However, if you have failed a core module you must replace this with an untaken core module. If there are no remaining core modules or if the module is a compulsory requirement for the programme, we will not allow you to change modules.

6.6
Under the conditions described in 6.5, the maximum number of modules you can drop after passing the examination and receiving a ‘Fail’ grade for the module overall is one if you are registered for a Postgraduate Diploma programme and two if you are registered for an MSc or MBA programme. You will be required to pay the fees, in full, for any new module that you take.

7 Progression within the programme
See section 4 for method of assessment.

7.1
In any one year you may attempt examinations in a maximum of four modules.

7.2
If you are registered on an MSc programme, with the exception of MSc in Finance (Quantitative Finance), and you wish to write a dissertation, you are required to complete the tutor marked assignments for FMM353 Research Methods first.

Transfer from Postgraduate Diploma to the MSc or MBA

7.3
If you have been examined in all four of the Postgraduate Diploma modules and you have passed a minimum of three modules we may permit you to progress to a related MSc or the MBA. You will be required to re-sit the examination for the remaining Postgraduate Diploma module in the following year. This will count as the second attempt for that module. After June 2017 you will not be able to transfer from the Postgraduate Diploma in Banking to the MBA Banking programme.
7.4
In the circumstances noted at 7.4, if you progress to the related degree but are unable to complete the degree you may be eligible for a Postgraduate Certificate or Postgraduate Diploma, with effect from the year and under the regulations when the Postgraduate Certificate or Postgraduate Diploma was completed.

7.5
If you accept the award of the Postgraduate Diploma you will not be permitted to re-register for the related MSc or the MBA at a later date. If you receive an invitation to transfer to the related MSc or MBA, but do not make a decision on award or transfer within three months of sitting your final examination, you will automatically be awarded the Postgraduate Diploma at the end of that period. The award will be with effect from the year in which the Postgraduate Diploma examination was completed.

Transfer from Individual professional awards

7.6
If you successfully complete the assessment for one or more of the Individual professional awards available as stand-alone modules you may be considered for progression to the related Postgraduate Diploma or MSc degree. Credit for that Individual professional award may also be considered provided that an application is made within three years of the completion of the relevant module or modules. Neither progression nor credit is automatic.

8 Schemes of award

8.1
Modules are marked according to the following scales:

MSc degrees and the MBA

<table>
<thead>
<tr>
<th>Mark range</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>70+</td>
<td>Distinction</td>
</tr>
<tr>
<td>60-69</td>
<td>Merit</td>
</tr>
<tr>
<td>50-59</td>
<td>Pass</td>
</tr>
<tr>
<td>0-49</td>
<td>Fail</td>
</tr>
</tbody>
</table>

Postgraduate Diploma

<table>
<thead>
<tr>
<th>Mark range</th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>50+</td>
<td>Pass</td>
</tr>
<tr>
<td>0-49</td>
<td>Fail</td>
</tr>
</tbody>
</table>

8.2
To calculate the mark for a module, the combined tutor marked assignment grade is added to the written examination grade in the ratio 30:70. Any re-sit mark for written examinations override the first mark attained.
8.3
In order to pass a module, you must normally pass both elements of the assessment.

8.4
In order to pass any module you must achieve a grade of at least 50% across the written examination and tutor marked assignments.

8.5
For the award of:

- an MSc, you must have attempted and normally have passed eight modules. At our discretion, and on meeting certain criteria, your result may be condoned and we may award the degree if you have passed in six modules;
- the MBA, you must have attempted and normally have passed six modules. At our discretion, and on meeting certain criteria, your result may be condoned and we may award the degree if you have passed in four modules;
- a Postgraduate Diploma, you must have attempted and normally have passed four modules. At our discretion, and on meeting certain criteria, your result may be condoned and we may award the diploma if you have passed in three modules.

8.6
To calculate the final grade all modules are weighted equally.

8.7
In order to be considered for the award of:

- Merit - you must obtain a mark of 50% or more in each module and an average mark of 60% across all modules.
- Distinction - you must obtain a mark of 60% or more in each module and obtain a mark of 70% or more in at least three modules.

The Postgraduate Diploma is awarded without classification.

See Appendix C for information on how to achieve a particular mark.

- clear evidence of wide and relevant reading, referencing and an engagement with the conceptual issues;
- capacity to develop a sophisticated and intelligent argument;
- rigorous use and a sophisticated understanding of relevant source materials, balancing appropriately between factual detail and key theoretical issues. Materials are evaluated directly and their assumptions and arguments challenged and/or appraised;
- correct referencing;
- significant ability to analyse data critically;
- original thinking and a willingness to take risks.

60-69 (Merit)

A mark in the range 60-69 will fulfil the following criteria:

- ability to plan, organise and execute independently a research project or coursework assignment
- strong evidence of critical insight and thinking;
- a detailed understanding of the major factual and/or theoretical issues and directly engages with the relevant literature on the topic;
clear evidence of planning and appropriate choice of sources and methodology with correct referencing;

ability to analyse data critically;

capacity to develop a focussed and clear argument and articulate clearly and convincingly a sustained train of logical thought.

50-59 (Pass below Merit)
A mark in the range 50-59 will fulfil the following criteria:

- Ability to plan, organise and execute a research project or coursework assignment;
- a reasonable understanding of the major factual and/or theoretical issues involved;
- evidence of some knowledge of the literature with correct referencing;
- ability to analyse data;
- shows examples of a clear train of thought or argument;
- the text is introduced and concludes appropriately.

40-49 (Fail)
A Fail will be awarded in cases which:

- limited ability to plan, organise and execute a research project or coursework assignment;
- some awareness and understanding of the literature and of factual or theoretical issues, but with little development;
- limited ability to analyse data;
- incomplete referencing;
- limited ability to present a clear and coherent argument.

20-39 (Fail)
A Fail will be awarded in cases which:

- very limited ability to plan, organise and execute a research project or coursework assignment;
- fails to develop a coherent argument that relates to the research project or assignment;
- does not engage with the relevant literature or demonstrate a knowledge of the key issues;
- incomplete referencing;
- contains clear conceptual or factual errors or misunderstandings;
- only fragmentary evidence of critical thought or data analysis.
0-19 (Fail)
