Important information regarding the Programme Regulations

About this document

Last revised 9 June 2016

As a student registered with the University of London you are governed by the current General Regulations and Programme Regulations associated with your programme of study.

The Programme Regulations are designed and developed by the College of the University of London responsible for the programme and they normally take account of the associated arrangements within the College. Programme Regulations, together with the [Programme Handbook](#), will provide the detailed rules and guidance for your programme of study. Further information about how to use the Programme Regulations and Programme Handbook can be found in the [Student Guide](#).

In addition to Programme Regulations you will have to abide by the [General Regulations](#). These regulations apply to all students registered for a programme of study with the International Academy and provide the rules governing registration and assessment on all programmes; they also indicate what you may expect on completion of your programme of study and how you may pursue a complaint, should that be necessary.

Programme Regulations should be read in conjunction with the General Regulations.

A [Glossary](#) provides an explanation of the terms used in this document.

If you have a query about any of the programme information provided please contact us. You should use the *ask a question* tab in the student portal <https://my.londoninternational.ac.uk>.

To note:

Throughout the Regulations, 'we' 'us' and 'our' mean the University of London; 'you' and 'your' mean the student, or where applicable, all students.

Changes to Economics, Management, Finance and the Social Sciences (EMFSS) BSc, Graduate Diploma and Diploma for Graduates Regulations 2016-17:

Significant general changes

1. Since 2011-12, there have been two sets of regulations for the suite of EMFSS programmes, Old Regulations and New Regulations. 2015-16 was the final year for programmes offered under the Old Regulations. From 2016-17, all students are governed by the New Regulations. As there is now only one set of Regulations, explicit reference to New Regulations will not be made throughout, but any reference to the Old Regulations will be specified as such.
2. If you are registering for the first time for a Standard Route degree from 2016-17, you will be required to attempt 12 full courses and pass a minimum of 11 to be awarded a degree. This includes students who are transferring or progressing from the Certificate of Higher Education in Social Sciences, Diploma in Economics and Diploma in Social Sciences, as well as students who have cancelled their registration for a Graduate Diploma to register on a degree and students transferring from Individual Courses.

If you registered on a degree in 2015-16 or earlier, you will be able to continue to attempt 12 full courses and pass a minimum of 10 to be awarded the degree, but will also be able to choose whether to accept the award with 10 passes or attempt one or both of the failed courses again.

All students will be classified when they have attempted 12 full courses (or equivalent) and passed 11 full courses (or equivalent).

3. The award title of Diploma for Graduates has been renamed to Graduate Diploma. If you have registered for a Diploma for Graduates in a previous year and are continuing your studies in 2016-17, you can choose to keep your existing award title or change to a Graduate Diploma.
4. Selection groups F(i) and F(ii) are combined into a single selection group, called F1. Selection group F(iii) will become F2.

New programmes

5. The Certificate in Higher Education in Social Sciences (CHESS) is launched for the 2016-17 academic year, and the Diploma in Economics and Diploma in Social Sciences are now closed to new registrations. If you are registered on one of the Diplomas you will have the full five-year registration period available to complete your studies, with final examinations (including resits) available in 2019-20.
6. The Certificate of Higher Education and the Diplomas are now covered in a separate set of Regulations.

Closing programmes - please also see the information box at the bottom of this list

7. 2016-17 is the final year for BSc Geography and Environment, and the examination period is for resit examinations only. If you are unable to complete the degree in 2016-17, you may consider the options of either applying for an unnamed exit award or transferring to another degree where possible.
8. The Access route is now completely withdrawn.

Closing courses

9. The following courses are available for the final time in 2016-17, for resit examinations only:
- GY1147 *Physical geography: fundamentals of the physical environment*
 - GY1148 *Methods of geographical analysis* (half course)
 - GY2149 *Biogeography*
 - GY2150 *Geomorphological processes*
 - GY2151 *Environmental change*
 - GY2152 *Hydrology*
 - GY3068 *Society and the environment*
 - GY3153 *Space and culture*
 - GY3154 *Geomorphological applications*
 - GY3155 *Biodiversity*
 - GY3156 *Tropical land management*
 - GY3157 *Independent geographical study*
 - LA3012 *History of English law*
 - SC1158 *Reading social science* (half course) (see points 12 and 26 below)
10. Three courses have been withdrawn: MN1107 *Introduction to business and management*, MN3077 *Management: international and comparative perspectives* and SC1021 *Principles of sociology*.
- If you were registered for MN1107 or SC1021 in a previous year, have not passed it and have attempts at examination remaining, you will automatically be transferred to the replacement courses, MN1178 *Business and management in a global context* or SC1179 *Contemporary sociology in a global age* respectively, and carry across the number of attempts.
- If you were registered on MN3077 and have attempts remaining, you will have to choose another course to replace it.
11. LA3016 *Succession* has been withdrawn with immediate effect and is no longer available for registration.
12. SC1158 *Reading social science* (half course) is being withdrawn and 2016-17 is the final year it is offered, which is for resit examinations only.
13. Notice is served on the following courses:
- SC2145 *Social Research Methods*
 - SC2163 *Sociological theory and analysis*
 - SC3057 *Social policy*
 - SC3144 *Historical sociology*
 - SC3160 *Population and society*

These courses will be available for examination as a first attempt for the final time in 2017-18 and final resit examinations will be in 2018-19.

Programme changes

14. The programme structure for BSc Banking and Finance Graduate Entry has changed. At point 6, EC2020 *Elements of econometrics* has been removed from the list of options. If you have registered for this course in a previous year, you will be allowed to continue with your registration for it, up to the maximum number of attempts.
15. The programme structure for BSc Economics and Management (Path B) Graduate Entry has changed. At point 8, IS2136 *Information systems and organisations* and MN2079 *Elements of social and applied psychology* have been removed from the list of options. At point 9, you will be able to select a 300 course only from Selection group E. However, if you have registered for IS2136 or MN2079 at point 8 or a 200 course at point 9 in a previous year, you will be able to continue to register for them, up to the maximum number of attempts.
16. The programme structure for BSc Information Systems and Management (both Path A and Path B) Graduate Entry has changed. At point 4, EC1002 *Introduction to economics* has been removed from the list of options. If you have registered for the course in a previous year, you will be allowed to continue with your registration for it, up to the maximum number of attempts.
17. Due to the consolidation of Selection groups F(i) and F(ii) into F1, if you are registered on BSc International Development or BSc Politics and International Development, you will be able to choose a course from the whole of the new F1 Selection group where in previous years you could select from F(i) only.
18. If you transfer to the BSc Mathematics and Economics or Graduate Diploma in Mathematics you will need to either have passed a course or half course with an MT course code, or to have passed a GCE A Level in Mathematics or equivalent. This is to align the programmes with new higher mathematics course requirements for applicants.
19. The programme structure for BSc Sociology has a new option at point 2 of both Standard and Graduate Entry Routes, and the structure for BSc Sociology and Law has a new option at point 2 of the Standard Route. If you have not already made an examination attempt at SC1158 *Reading social science* (half course), you will take the new full course SC1185 *Reading social science*. Please note the change in course codes.
20. For BSc Sociology and BSc Sociology with Law: If you have attempted and failed SC1158 *Reading social science* (half course) and still have attempts remaining, you may make a final attempt at it in 2016-17, or switch to the new full course, carrying the number of attempts over. If you switch to the new course, and have already passed ST104A *Statistics 1* (half course) then it will be placed elsewhere in the structure if there is space for it. If there is not, then it must be discarded.

Updates made on 9 June 2016

21. The programme structure for BSc Accounting and Finance Standard Entry Route has changed. At point 11, Selection group B has been removed as an option. However if you have registered for a course from this Selection group in 2015-16 or earlier, you will be able to continue with your registration for it, up to the maximum number of attempts.
22. The programme structure for BSc Banking and Finance Standard Entry Route has changed. At point 10, Selection groups E and M have been removed as options. However if you have registered for a course from this Selection group in 2015-16 or earlier, you will be able to continue with your registration for it, up to the maximum number of attempts.

Course changes - Please note that this information does not include details of updates to syllabuses

23. New co-requisites have been added for EC1002 *Introduction to economics*. You can now only take EC1002 *Introduction to economics* at the same time as or after ST104A *Statistics 1* and either MT105A *Mathematics 1* or MT1174 *Calculus*, not before.
24. New co-requisites have been added and the prerequisites amended for EC2020 *Econometrics*. You can now only take EC2020 *Econometrics* at the same time as or after ST104B *Statistics 2* and MT105B *Mathematics 2*, not before. EC1002 *Introduction to economics* remains a prerequisite course, and MT105A *Mathematics 1* and ST104A *Statistics 1* become compulsory rather than optional prerequisites. However, if you have passed MT1174 *Calculus*, you do not need to take MT105A or MT105B, but must still meet the other prerequisites and co-requisites. MT1174 remains a prerequisite option and must be passed before taking this course.
25. EC2096 *Economic history in the 20th century* has been renamed EC2096 *Economic History since 1900*. If you have attempted this course you will keep the previous attempts on your record.
26. MN2079 *Elements of social and applied psychology* has a new course code: SP2079. If you have attempted this course you will keep the previous attempts on your record.
27. The exclusion rule between MT105A *Mathematics 1* and MT1173 *Algebra* has been removed, meaning you can now take both of these courses where available.
28. SC1185 *Reading social science* is a full course brought in to replace SC1158. If you have attempted SC1158 and transfer to SC1185, you will carry over the number of attempts **(please note the change in course code between the half course and the full course)**.
29. The name of LA1031 *Common law reasoning and institutions* has changed to LA1031 *Legal system and method*. If you have attempted this course you will keep the previous attempts on your record.
30. A number of courses from the Undergraduate Laws Programme syllabuses are changing from FHEQ level 6 (300 level) courses to FHEQ level 5 (200 level) courses. These are:
 - *Equity and trusts* (previously LA3002, now LA2002)
 - *Administrative law* (previously LA3008, now LA2008)
 - *Commercial law* (previously LA3017, now LA2017)
 - *Family law* (previously LA3019, now LA2019)
 - *EU law* (previously LA3024, now LA2024)
 - *International protection of human rights* (previously LA3029, now LA2029)

If you have passed any of these courses already, you will keep the existing pass with the same level and course code. If you are taking one of these courses for the first time, or have failed it in a previous sitting and have attempts left, you will be registered on the 200 level course, and will keep any previous attempts on your record.

Miscellaneous

31. To codify existing practice, a regulation has been added to Section 7: Transfer of registration to note that if you discard a course on transfer to another programme, you will be able to continue to use that course to meet the prerequisite requirements of other courses.

The last examinations for BSc Geography and Environment were held in 2015-16 with final resits only in the 2016-2017 academic year. This year is the final year that students can graduate with this award.

2013-14 was the final year for initial registrations for the following programmes:

BSc Business

BSc Management

BSc Sociology

BSc Sociology with Law

Graduate Diploma/Diploma for Graduates - Geography and Environment

The final examinations for these programmes will be held in 2017-18 with resits only in 2018-19

1 Structures of the programmes

1.1

Each course of an Economics, Management, Finance and the Social Sciences (EMFSS) programme is called a 100 course, 200 course or 300 course.

In the context of UK higher education, the Framework for Higher Education Qualifications (FHEQ) levels are as follows:

100 courses are equivalent to Level 4

200 courses are equivalent to Level 5

300 courses are equivalent to Level 6

See the Glossary for information about the [FHEQ](#).

1.2

For the purposes of these Regulations, two half courses (15 credits each) are equivalent to one full course (30 credits). You can only pair 100 level half courses with other 100 level half courses.

See regulations 3.4-3.5 in [Appendix D: Scheme of award](#) for information on pairing courses for classification.

Degrees

1.3

Each degree through the Standard Route comprises 12 full courses (or equivalent).

For students first registering for a degree in 2016-17: To be considered for the award, you must attempt 12 full courses (or equivalent), and pass a minimum of 11 full courses (or equivalent).

For students who have registered for a degree in 2015-16 or earlier: To be considered for the award, you must attempt 12 full courses (or equivalent), and pass a minimum of 10 full courses (or equivalent).

1.4

Each degree through the Graduate Entry Route comprises nine full courses (or equivalent). To be considered for the award, you must attempt and pass all nine full courses (or equivalent).

More details about how to progress through the programmes can be found in [Section 6: Progression within the programme](#) and in [Appendix D: Scheme of award](#)

1.5

If you register for a Standard Route degree, you may apply for accreditation of prior learning (APL) for up to four 100 courses. No APL is allowed for the degrees through the Graduate Entry Route.

Details about credit and APL can be found in [Section 2: Credit transfer and accreditation of prior learning](#)

1.6

You may be allowed to transfer between different degrees and from one Route to another of the same degree. You may also progress from an Individual Course, Access route, the Certificate of

Higher Education in Social Sciences, Diploma in Economics or Diploma in Social Sciences to a degree. You cannot transfer to a Graduate Diploma.

Details about transferring can be found in [Section 7: Transfer of registration](#)

Recognition of Law courses

1.7

To be awarded the degree of BSc Accounting **and** Law or BSc Management **and** Law, you will need to attempt the assessment for six law courses (any course in Selection group [F2](#) or [L](#)).

You will be awarded the BSc Accounting **with** Law or BSc Management **with** Law if you complete the degree with fewer than six law courses attempted (any course in Selection group [F2](#) or [L](#)).

Graduate Diplomas/Diplomas for Graduates

From 2016-17, Graduate Diploma is the new award title for the award previously called Diploma for Graduates.

If you are registering for the first time in 2016-17 you will automatically be registered on a Graduate Diploma.

If you are registered on a Diploma for Graduates from a previous year, you can choose to keep the existing award title or change to the new one. You will be able to do this through the continuing registration task or by submitting an enquiry via your Student Portal if you have already completed registration. You must have requested to transfer to the new award title by the time you make your examination entry in the year you intend to complete your studies.

1.8

Each Graduate Diploma/Diploma for Graduates consists of four full courses (or the equivalent).

1.9

No APL is permitted.

1.10

You may apply to transfer between the different Graduate Diplomas or from a Diploma for Graduates to another Graduate Diploma and may be awarded credit. It is not possible to transfer to or from a Graduate Diploma/Diploma for Graduates to or from any other EMFSS award.

Details about transferring can be found in [Section 7: Transfer of registration](#)

1.11

If you successfully complete a Graduate Diploma/Diploma for Graduates programme, you will be awarded the Graduate Diploma/Diploma for Graduates with the award title and name that you are registered for at the time the award is completed.

Choice of courses

1.12

You may change your choice of course provided that you can meet all of the following requirements:

- you are not yet eligible for the award;
- you have not entered the examination for the course you want to change from;

- an alternative course is available and you are eligible to register for it;
- you can meet the co-requisites and prerequisites for the new course (degree students only).

[Prerequisites](#) are shown in the [programme structures](#) and [Selection groups](#) in Appendix A in brackets next to the course names. [Co-requisites](#) are indicated by a black triangle in front of the course name.

If you are registered for a degree and you change to a new course, you must ensure you meet the prerequisites. New courses which replace old courses may have different prerequisites.

If you are registered for a Graduate Diploma/Diploma for Graduates you do not need to meet co-requisites or prerequisites but are strongly advised to be prepared for the high academic requirements of the courses.

1.13

If you have entered the examination for a course, you may apply to change to a different course if you meet the other conditions in 1.12, but all decisions will be at our discretion.

1.14

Where a course has been succeeded by a new replacement course, it is strongly recommended that you change to the new course wherever possible if you have failed or not attempted the 'old' course.

In the unlikely event that we recommend you continue with a course that is being replaced, this will be stated in the 'Notes' section of the programme structures in [Appendix A](#).

1.15

If you have failed the last available resit examination for a course which has been replaced, you must change to the new course unless your programme structure allows you to change to an alternative course.

Information on the number of attempts permitted can be found in [Section 5: Number of attempts permitted at an examination](#).

1.16

Not all courses will necessarily be available for study at all institutions recognised to teach the programmes.

2 Credit transfer and accreditation of prior learning

See the Glossary for definition of [credit](#) and [accreditation of prior learning](#), also referred to as recognition of prior learning. Regulations set by Professional and Accrediting Bodies may impose further restrictions on the amount of APL that is recognised. You should contact them if you have any further questions.

This section is to be read in conjunction with Section 3 of the [General Regulations](#).

Accreditation of prior learning (APL)

Applications for discretionary APL are considered on a strict course for course basis. Decisions are taken based on the syllabus, the level of examination performance and the comparability of the courses.

Further information on qualifications which may be considered for [discretionary APL](#) is available on our website.

For information on automatic APL, please see regulations 2.7 – 2.10 and the [automatic APL](#) section of our website.

2.1

Applications for APL will be considered either on a discretionary or automatic basis for any 100 course. APL will not be considered for 200 or 300 courses.

2.2

APL can be awarded for a maximum of four full courses (or equivalent). It will only be considered for Standard Route degrees.

2.3

Where APL is awarded for a named course, you will be able to use that APL where that course is named as a prerequisite. APL for unnamed courses may not be used to meet prerequisite requirements.

2.4

APL will not be granted on the basis of GCE A levels or school leaving certificates. With the exception of the qualifications noted in the APL section on our website, APL is not normally granted on the basis of examinations from professional institutions.

2.5

If you are applying for discretionary APL, consideration will also be given if you have completed part of a degree-level qualification that has been examined within five years of your application.

2.6

If you are applying for APL on the basis of a qualification that has not yet been awarded, it will be considered under the rules governing APL with reference to the date of award, not the date of application to the University.

The deadline to apply for APL to be considered for the upcoming academic year is 1 October.

Automatic APL

2.7

In order for an application for automatic APL to be considered, you must:

- have passed the whole qualification on the basis of which you are claiming APL, unless otherwise stated in the [Automatic Accreditation of Prior Learning table](#), and
- have already received the final award for that qualification unless otherwise stated in the [Automatic Accreditation of Prior Learning table](#), and
- have obtained all the qualifications on which the application for APL is based within the five years preceding the application.

2.8

If you hold any of the qualifications listed in the Automatic Accreditation of Prior Learning table, you will not be asked to pay the APL application fee for consideration of these courses but must still submit an application.

2.9

When automatic APL is granted for alternative courses in the table of Automatic Accreditation of Prior Learning (for example APL for 'MN1178 *Business and management in a global context*' or '*one unnamed 100 course*'), only one of these two credits can be counted towards your degree and the following rule will apply:

- if the named course (MN1178 in the above example) is available on the degree you are registered on or will be registering for, then APL for this course will be counted towards your degree; or
- if the named course is not available on the degree you are registered on or will be registering for, then APL for '*one unnamed 100 course*' may count towards the degree, if the degree structure allows.

2.10

Automatic APL will be granted for up to the maximum four courses for the degree you are registering for/have registered on. If you qualify for APL for a course which is not available on the degree, then it will be noted but not applied to your record. If you later transfer your registration to another degree where that APL is available, it will then be applied to your record as long as it is still valid.

Unnamed 100 courses

2.11

APL is normally considered for named courses. However, in certain circumstances and if you can meet relevant criteria, we may decide to award APL for one unnamed 100 course on a discretionary or automatic basis.

2.12

Where APL is granted for an unnamed 100 course, the APL will be placed at the point on the degree structure marked with a black diamond symbol (◆) in [Appendix A](#) of the Regulations.

2.13

On transfer to a different degree through the Standard Route, APL previously granted from a named course may be used as *one unnamed 100 course* provided that:

- the named course is not available on the degree you are transferring to; and
- this is allowed on the structure of the degree you are transferring to.

Credit transfer

2.14

Credit transfer can be considered for degrees studied through the Standard Route. It can also be considered for degrees studied through the Graduate Entry Route and the Graduate Diplomas/Diplomas for Graduates, subject to regulation 2.15.

2.15

Credit transfers are only allowed at our discretion for the degrees studied through the Graduate Entry Route or the Graduate Diploma/Diploma for Graduates if they have originated from an EMFSS Individual Course, passed within five years of your effective date of registration on your current programme.

See regulation [6.20](#) and also the regulations for EMFSS Individual Courses:
www.londoninternational.ac.uk/regs.

3 Registration

Effective date of registration

3.1

Your effective date of registration will be 30 November in the year you first register. This allows you to sit your first examinations the following May/June.

Registration of lapsed or former students

3.2

If you have been registered under the discontinued Old Regulations for an EMFSS award and your registration has become inactive, you may be allowed to register under these Regulations and request APL for courses already completed. This will be at our discretion.

All enquiries relating to transferring, cancelling or resuming your registration should be submitted to us in writing through your [Student Portal](#) or the [online enquiry form](#).

3.3

If you complete an EMFSS award and then register for a further EMFSS programme, you will not normally be allowed to reregister for a course you have already passed.

If you have already passed a course that is compulsory on the structure of the new programme, you will need to apply to the [LSE Office for University of London International Programmes](#) to substitute this course with another from a limited selection group.

If you have failed a course on the previous programme you will be allowed to take it again with the full number of attempts.

This regulation does not apply when progressing from the Certificate of Higher Education in Social Sciences, Diploma in Economics or Diploma in Social Sciences to a degree, as your credits will be transferred across where possible.

4 Assessment for the programme

See the Glossary for the definition of [examination](#) and [written paper examination](#).
Information on coursework and project requirements are in the subject guides and the VLE.

Assessment methods

4.1

Each full course is examined by one three-hour unseen written examination.

Each half course is examined by one two-hour unseen written examination.

For EMFSS courses, the exceptions to this are:

- AC1025 *Principles of accounting*, AC3091 *Financial reporting* and AC3097 *Management accounting*: these three courses are each examined by one three-hour and 15 minutes unseen written examination, including reading time.

- GY3157 *Independent geographical study*: this course is examined by a final project report of between 8,000 and 10,000 words
- IS3159 *Research project in information systems*: this course is examined by a project report and evaluation form.
- IS1060 *Introduction to information systems* and IS3139 *Software engineering: theory and application*: the assessment for each of these courses involves the submission of coursework in addition to unseen written examinations.

You are responsible for ensuring that you submit any required coursework by the date given on the relevant course page in your VLE or subject guide.

Students studying law courses (any course in Selection groups [F2](#) or [L](#)) should refer to the Undergraduate Laws VLE for further information on assessment methods.

4.2

If you enter an examination you must be examined in all elements of the assessment set for that course in the same academic year. If you fail to submit the required coursework for a course but sit the written paper or vice-versa, you will normally be judged to have not completed the assessment. You will receive a result of *attempt incomplete* for the course.

Receiving a result of *attempt incomplete* will count as an attempt at the examination, but will not count towards the number of courses completed to assess your eligibility to graduate.

If you submit your coursework late you may be issued with a penalty.

Regulation 4.2 is not applicable for the course LA1031 *Legal system and method*. For more details about the assessment for this course please refer to the relevant course area in your VLE.

4.3

Half courses are paired, averaged and rounded up to a whole number to produce marks for classification/grading purposes.

See regulations [3.4 - 3.5](#) in Appendix D: Scheme of award for further information on how half courses are paired for classification.

If you are taking law courses

4.4

In the examination for law courses (any course in Selection groups [F2](#) or [L](#)), questions may be set on recent legislation and current proposals for law reform within the scope of the syllabus. You will be expected to be familiar with developments in the law occurring up to 15 February in the year of the examination.

If you are registered for the BSc Accounting with Law, BSc Management with Law or BSc Sociology with Law, you should note that at the request of the [Solicitors Regulation Authority](#) and the [Bar Standards Board](#), we will provide these bodies with details of proven examination offences, including any action we have taken.

Date of examinations

4.5

Written paper examinations take place in May/June each year.

4.6

You are responsible for submitting your coursework to us, and for ensuring that your work is sent to the EMFSS Assessment Office on or before the deadline of 1 May.

1 May is a 'sent by' deadline, meaning that the package must display clear evidence that it was sent no later than this date (for example, a postmark or courier documentation).

Details of how to submit your coursework are provided on the relevant course page in the VLE.

Materials and aids permitted within the examination room

4.7

For some courses you will be given materials with the question paper, such as graph paper, accounting paper or statistical tables, for use in the examination. The provision and permitted use of these materials is subject to change.

4.8

We will not provide calculators. In examinations that permit their use, you are responsible for providing your own calculator, making sure that it meets the conditions set out below and is in working order for the examination. You should make sure that you have a spare calculator (which also meets the conditions set out below) in case your calculator fails during the examination, or you must be prepared to continue the examination without a calculator. You are not allowed to borrow another student's calculator during the examination. If you use a calculator in an examination, you must write the name and type of calculator you used on your examination script.

4.9

If you are allowed to use a calculator in an examination, you must keep to the conditions listed below, unless the course description or the information provided with your admission notice tells you otherwise.

Calculators must:

- be non-scientific;
- be non-programmable; and
- not be capable of receiving, storing or displaying user-supplied non-numerical data.

You must not use a calculator that communicates or displays textual, graphical or algebraic information (other than error messages). If you use a calculator that does not meet all of these conditions, you will be considered to have committed an assessment offence.

Where calculators are permitted, only calculators limited to performing just basic arithmetic operations may be used. This is to encourage candidates to show the examiners the steps taken in arriving at the answer.

See Section 8 of the [General Regulations](#) for information on assessment offences.

4.10

For the following courses, you may bring your own calculator into the examination hall:

- AC1025 Principles of accounting
- AC3059 Financial management
- AC3091 Financial reporting
- AC3097 Management accounting
- AC3143 Valuation and securities analysis
- EC1002 Introduction to economics
- EC2020 Elements of econometrics
- EC2066 Microeconomics
- EC3015 Economics of labour
- EC3115 Monetary economics
- EC3120 Mathematical economics
- FN1024 Principles of banking and finance
- FN2029 Financial intermediation
- FN3023 Investment management
- FN3092 Corporate finance
- FN3142 Quantitative finance
- MN3028 Managerial economics
- MN3032 Management science methods
- MN3119 Strategy
- MT2076 Management mathematics
- MT3095 Further mathematics for economists
- SC2145 Social research methods
- ST104A Statistics 1
- ST104B Statistics 2
- ST3133 Advanced statistics: distribution theory
- ST3134 Advanced statistics: statistical inference

Statutes

A definitive list of statutes and other materials permitted in the examination hall is sent out with the admission notice/timetable.

4.11

We will not provide statutes or other documents in the examination room. However, you will be allowed to bring the statutes and other materials listed in the subject syllabuses into the examination room. You are allowed to use any edition of the permitted statutes, although you are strongly advised to use the most recent one.

Where statutes or statutory instruments are listed at the end of individual syllabuses this means a 'Queen's Printer' copy of the statute or statutory instrument or a photocopy of a 'Queen's Printer' copy or a 'Print' (PDF) copy (but not a 'Web' (HTML) copy) downloaded from the Office of Public Sector Information website and a 'Queen's Printer' copy of any later statute amending or repealing

those statutes. ‘Queen’s Printer’ copies must be of the full original statute or statutory instrument and not of the statute or statutory instrument as reprinted in a case book or statute book.

The details of statutes and other documents given in the syllabuses are subject to revision by the Board of Examiners and will be superseded by the consolidated list of statutes and other materials which will be circulated to you with the timetable.

4.12

You may underline and/or highlight passages with a coloured pen in the materials, but all other forms of personal annotation on statutes and other materials permitted to be taken into the examination room are strictly forbidden. You may highlight different passages with different coloured pens. You are forbidden to attach self-adhesive notelets or index tags or any other paper to the pages of statute books or other permitted materials.

5 Number of attempts permitted at an examination

Please refer to [6.21 - 6.27](#) for information about registering for resit examinations within the rules of the structure of your programme.

Information about progression within a programme can be found in [Section 6: Progression within the programme](#) and information on transfers is in [Section 7: Transfer of registration](#).

5.1

You may have a maximum of three attempts at the examination for each course of an EMFSS degree.

5.2

You may have a maximum of two attempts at the examination for each course of a Graduate Diploma/Diploma for Graduates.

5.3

If you are not yet eligible for your award, you are required to either:

- make a further attempt at all failed courses, provided the maximum number of attempts has not been exhausted; or
- substitute a failed course with an alternative course where the programme structure allows.

5.4

You will not be allowed to make a further attempt at a course if you fail it at the final attempt. If eligible, you will be able to choose:

- to continue on the programme you are registered for, and replace the failed course with an alternative course. This is only possible if:
 - it is permitted in the programme structure, and
 - if you can still meet all other requirements for the award, and
 - in the case of a degree, the failed course is not a prerequisite for a compulsory course.
- (for degrees through the Standard Route only) to continue the degree, carrying the course to classification. You can only do this if the failed course is not a prerequisite for a compulsory course and you can still meet all other requirements for the award of the degree;
- to transfer to another degree or Graduate Diploma/Diploma for Graduates governed by these Regulations, provided that you meet the conditions for transfer.

However, if you cannot meet the requirements for your award or the conditions for transfer, your registration will cease.

5.5

Once the Board of Examiners decides that you are eligible for a degree or Graduate Diploma/Diploma for Graduates award, it will be awarded and you will not be permitted to make any further attempts at any failed courses or to substitute any failed courses with alternative courses.

See regulation [6.9](#) for details of your eligibility for an award based on the number of passes relating to your year of registration.

5.6

If you progress from the Certificate of Higher Education in Social Sciences or one of the Diplomas to an EMFSS degree, you must carry failed courses with you if they are compulsory courses on the degree you are transferring to.

Any failed courses which are available but not compulsory on the degree you are transferring to, may either:

- be carried and retaken provided you have not exhausted the maximum number of attempts, keeping the remaining number of attempts at the course; or
- be discarded and you can change to an alternative course.

Failed courses which are not available on the degree you are transferring to must be discarded.

5.7

If you are registered for the Access route and transfer to a degree under these Regulations having failed a course common to that degree, the fail will not count towards the total permitted number of attempts at that course.

Although absence from an examination will not count towards the number of attempts for that course, if you have made an examination entry and are then absent, you will need to pay an examination re-entry fee the next time you enter the examination.

6 Progression within the programme

See [Section 4: Assessment for the programme](#) for the method of assessment and [Section 5: Number of attempts permitted at an examination](#) for the number of attempts allowed at an examination.

All students

6.1

In line with the Regulations, you may decide when you are examined, the number of courses you try each year and the order in which you decide to try each course. You do not have to be examined each year.

Standard Route degree students

6.2

You must pass (or have been granted APL for) at least two full 100 courses (or equivalent) before you are allowed to take any 200 or 300 courses.

6.3

In the first year of study, you can only take 100 courses unless you have been granted APL for at least two full 100 courses (or equivalent).

All degree students

6.4

In the years that you enter for examinations, you are not allowed to register or enter examinations for more than four new courses (i.e. courses you have not been examined in before) in an academic year. The only exception to this is if you meet the requirements in regulation 6.5 below.

6.5

In the academic year you enter to complete your degree you are allowed to register and enter examinations for a maximum of five new courses, but only if you are not required to register and enter examinations for any resit examinations. This is strictly only permitted if this enables you to attempt to complete your degree.

6.6

In the years that you enter for examinations, you are allowed to register and enter examinations for a minimum of one half course and a maximum of five courses, in either a combination of new courses and resits (with a maximum of four new full courses) or resits only, in an academic year.

6.7

You must keep to the prerequisites, co-requisites, exclusions and other rules that apply for the courses you study. Apart from where these rules apply, you may enter for courses in any order.

Details of prerequisites, co-requisites, exclusions and other rules are given in the [Course Information Sheets](#) and in the programme structures in [Appendix A](#).

6.8

You are allowed to take one additional non-credit bearing course as an 'Individual Course' under the Individual Courses Regulations in your final year provided that you do not take more than four other courses in the same examination period.

The Individual Courses regulations for EMFSS are on the website:

www.londoninternational.ac.uk/regs

If you wish to supplement your degree study with an individual course you must submit a completed individual course application form. The application form is on the [EMFSS Individual Courses](#) page on our website. An individual course cannot be used as credit towards your degree when taken during your degree registration.

6.9

For students who have registered for a degree in 2015-16 or earlier:

The Board of Examiners will consider if you are eligible for award of the degree through the Standard Route when the following two conditions have been met:

- you have attempted every element of the assessment for 12 full courses or the equivalent, as specified in the structure for the degree (any APL awarded will count towards the 12 courses attempted), and
- you have retaken all failed courses from previous years for which the maximum number of attempts have not been exhausted, or, where the structure of the degree allows, you have replaced an alternative for a failed course.

In addition, you must have met one of the following two conditions:

- you have passed at least 10 full courses or the equivalent (any APL awarded will count towards the total of 10 courses), and have chosen not to make a further attempt at either of your two failed courses, or
- you have passed at least 11 full courses or the equivalent (any APL awarded will count towards the total of 11 courses)

For students who have registered for a degree in 2016-17 or later (including students transferring to a degree from another programme in 2016-17):

The Board of Examiners will consider if you are eligible for award of the degree through the Standard Route when the following three conditions have all been met:

- You have attempted every element of the assessment for 12 full courses or the equivalent, as specified in the structure for the degree (any APL awarded will count towards the 12 courses attempted), and
- you have passed at least 11 full courses or the equivalent (any APL awarded will count towards the total of 11 courses), and
- you have retaken all failed courses from previous years for which the maximum number of attempts have not been exhausted, or, where the structure of the degree allows, you have replaced an alternative for a failed course.

6.10

The Board of Examiners will consider if you are eligible for award of the degree through the Graduate Entry Route when you have attempted every element of the assessment for nine full courses (or equivalent), and passed all nine full courses (or equivalent).

For information on how the degree is classified see the Scheme of Award in [Appendix D: Scheme of award](#).

6.11

When considering your eligibility for award of the degree, the Board of Examiners will give special consideration if you have been absent from one or more examinations through illness or other suitable cause.

6.12

Once the Board of Examiners decides that you are eligible for award of the degree, the degree will be awarded and you will not be allowed to retake any failed courses or to swap any failed courses with other courses.

6.13

Once the award and classification of the degree have been confirmed by the Board of Examiners, you cannot refuse or decline the award or its classification. The decision of the Board of Examiners is final.

Graduate Diplomas/Diplomas for Graduates

6.14

In the years that you enter for examinations, you are allowed to take a minimum of one new half course and a maximum of four new full courses (or equivalent) plus any number of resits in an academic year.

6.15

There are no co-requisites or prerequisites for courses of the Graduate Diplomas/Diplomas for Graduates. You may enter for courses in any order.

Progression from the Access route to the degrees

6.16

You may progress to a degree, by applying to transfer your registration, provided that:

- for transfer to the Standard Route, you have passed two full courses of the Access route;

or

- for transfer to either the Standard Route or Graduate Entry Route you already satisfy the entrance requirements for the degree on the basis of other qualifications;

or

- you have made an attempt at two full courses and have passed one and half courses of the Access route;

or

- you already satisfy the entrance requirements for the degree;

and

- you have not failed a course at the final attempt that is a prerequisite for a compulsory course on the degree you want to transfer to.

6.17

You will be credited with courses previously passed on the Access route which are the same as, or equivalent to, the courses available on the degree you transfer to.

6.18

If you transfer to a degree having already failed one or more courses, you will not carry those fails with you. Failed courses which are available on the degree you are transferring to will be treated like new courses when taken for the first time after transfer. If you have failed a course which is required on the degree you transfer to, you must take this course again after transfer.

6.19

If you transfer to a degree carrying only one half course fail you must resit this failed course the first time you enter for an examination on the degree.

Progression from an individual course

6.20

Credit may be given on degrees and Graduate Diplomas/Diplomas for Graduates for courses previously passed as Individual Courses.

Resitting failed courses

Degrees

Resitting compulsory (named) courses

6.21

A compulsory course which you have failed must be selected during registration and retaken the next time you take an examination. If you have failed more than one compulsory course, you must register for and resit at least one the next time you sit an examination.

6.22

You cannot register and make an exam entry for any new courses unless you also register and enter the examination for all remaining failed compulsory courses.

Resitting unnamed courses and named alternative courses

6.23

If you fail an unnamed course or a course for which named alternatives are available, you can choose to either:

- reregister for and resit the failed course; or
- swap the failed course for a another course which can fit at that point of the programme structure.

6.24

You can choose to register for and resit an unnamed or named alternative course in any future examination session within your remaining period of registration.

6.25

If you choose to swap your failed course for another course but also have outstanding fails at compulsory courses, you must meet the requirements in regulation 6.22 and retake these failed compulsory courses before or at the same time you are examined in the course you have substituted.

6.26

If you have registered for a substitute course to replace the course you have failed, you will not be permitted to return and reregister for the original course at any point during your registration.

See the Glossary for the definition of [unnamed course](#) and [named alternative course](#).

Graduate Diploma/Diploma for Graduates

6.27

If you fail any course you may choose to register for and resit it, or substitute it where the structure permits, in any subsequent examination session within your remaining period of registration.

7 Transfer of registration

This section applies both to transfer between different programmes and within the same programme, unless indicated otherwise. Details of how to apply to transfer are in the [Student guide](#).

For entrance requirements, see the Requirements tab on each of the [programme pages](#) on our website.

Transfer from the Old Regulations to the New Regulations

7.1

If you were registered under the Old Regulations in 2015-16, did not complete your studies and your period of registration has not expired, your registration will automatically be transferred to the equivalent programme in these Regulations for 2016–17.

7.2

If you were registered for a programme under the Old Regulations which has notice served on it, you may transfer to the same programme under these Regulations. This is subject to conditions listed in these Regulations and only allowed if it is possible to complete the programme before it is withdrawn. You may not transfer to any other programme which has had notice served on it.

7.3

You will not be given a new period of registration on transfer to these Regulations. If you have failed any courses under the Old Regulations, you must carry these fails and they will count towards the number of attempts left.

7.4

When you transfer from the Old Regulations to a degree or Graduate Diploma/Diploma for Graduates under these Regulations, the following rules will apply for the courses you are transferring:

- If you are registered on a Standard Route degree, you will receive APL as stated in [Section 2](#) of these Regulations for 100 courses passed with a mark between 34 and 39. If you have passed any 100 courses with a mark of 40 or above, the mark will be transferred directly on to your new record. For 200 or 300 courses passed at 34 or above, the mark will be transferred directly on to your new record.
- If you are registered on a Graduate Entry Route degree or a Graduate Diploma/Diploma for Graduates, all eligible passes with a mark of 34 or higher will have the mark transferred directly on to your new record.

Some courses passed under the Old Regulations may have to be discarded on transfer if they cannot be placed on the programme structure you are transferring to. The rules for discarding courses can be found in regulations [7.37 - 7.46](#).

Transfer to a degree from a Graduate Diploma/Diploma for Graduates

7.5

You are not allowed to transfer your registration to a degree. To register for a degree, you must cancel your registration and apply afresh. To apply for the degree you must meet the relevant entrance requirements. If we allow you to register for the degree, you will not be allowed to carry

credit for any courses passed or carry any failed attempts at courses from your previous registration.

Transfer to the Graduate Diploma in Mathematics or the BSc Mathematics and Economics from other eligible programmes

7.6

To transfer to the Graduate Diploma in Mathematics or the BSc Mathematics and Economics, you must meet the higher mathematics requirements of the programme. You will need to have either passed an EMFSS mathematics course or half course (a course with an MT course code), or provide evidence of a GCE A Level pass (or equivalent) in a mathematical subject.

The equivalency of a number of qualifications can be found in the [Qualifications for Entrance](#) section of the website.

Transfer between degrees in the same Route (or Paths of the same degree)

7.7

You may transfer between the different EMFSS degrees in the Route that you are registered on (i.e. Standard Route or Graduate Entry Route), and may be awarded credit, provided that:

- you do not have to discard more than three full courses in total which you have previously passed, and
- you have not failed, at the final attempt, a course that is a prerequisite for a required course on the degree you want to transfer to, and
- this is allowed on the degree structure you want to transfer to, and
- you are not yet eligible for award of the degree.

You may only transfer to a degree which is still available to new students. The only exception to this is if you meet the conditions in regulation 7.2.

7.8

If you meet the conditions and want to transfer, you will need to confirm which degree (or Path where applicable) you want to register on when completing continuing registration and submitting payment of the annual continuing registration fee, and before completing the examination entry process. Any change of degree or Path must be indicated at those times. You cannot transfer when you have a live examination entry.

7.9

When you transfer you are allowed to discard up to three full courses you have already passed and any number of failed courses. You can transfer more than once but cannot discard more than three full passed courses in total during your registration. If you have already discarded three full passed courses you may not transfer again if further discards are required.

The rules for discarding courses are in regulations [7.37 - 7.46](#).

Transfer between degrees in different Routes

7.10

If you are registered for a Graduate Entry Route degree you may apply to us to transfer to a Standard Route degree provided that:

- you do not have to discard more than three full passed courses in total, and
- you do not transfer credit for more than eight full passed courses in total, and
- you have not failed, at the final attempt, a course that is a prerequisite for a required course on the degree you want to transfer to.

7.11

If you are registered for a Standard Route degree you may apply to us to transfer to a Graduate Entry Route degree provided that:

- you already meet the entrance requirements for the Graduate Entry Route, and
- you do not have to discard more than three full passed courses in total and
- you do not transfer credit for more than six full passed courses in total, and
- you have not failed, at the final attempt, a course that is a prerequisite for a required course on the degree you want to transfer to, and
- you have not entered the examination for a course that has a prerequisite for which you have received APL whilst registered for the Standard Route. This is because you will have to discard the APL on transfer to the Graduate Entry Route.

Credits awarded on transfers between degrees

7.12

You will be credited with courses previously passed which are the same as, or equivalent to, those listed in the structure of the degree you are transferring to. Courses you have passed which are not available (or equivalent) on the degree that you are transferring to may have to be discarded.

See the Glossary for the definition of [Credit transfer](#) and [Appendix A](#) for programme structures
Further information on credit can be found in 7.18 – 7.20.
Please refer to [7.37 - 7.46](#) for the rules on discarding courses

7.13

If you are credited with an unnamed 100 course on the basis of IS1060 *Introduction to information systems*, you will not be allowed to take IS2136 *Information systems and organisations* if available on the degree you transfer to.

7.14

If you pass the examination for MT1174 *Calculus* and then transfer to a degree which has the half courses MT105A *Mathematics 1* and/or MT105B *Mathematics 2* in the programme structure, MT1174 will be discarded and you will be awarded APL for MT105A and MT105B where applicable. You will not be required to attempt the examination for MT105A and/or MT105B.

Where only MT105A is compulsory on the new structure, APL for MT105B may be credited at a point on the structure where a half course can be chosen from [Selection group F1](#), as marked with a black diamond. You will also need another half course to be paired with it at this point.

This regulation also applies if you are transferring to a degree from the Certificate of Higher Education in Social Sciences, a Diploma or from passing MT1174 as an Individual Course.

APL on transfer to the degree (Graduate Entry Route)

7.15

You are not allowed to transfer APL which has been previously awarded whilst registered for another programme to a degree through the Graduate Entry Route.

If you are awarded APL from a course whilst registered for a degree through the Standard Route, you will be required to attempt the examination for that course if it is a compulsory course on the Graduate Entry Route structure you are transferring to.

APL on transfer between the degrees (Standard Route)

7.16

APL (including APL from an unnamed course) can be transferred automatically between degrees through the Standard Route provided that:

- the course is available on the degree to which you are transferring (or, in the case of APL from an unnamed course, that this is allowed on that degree structure); and
- the APL is still valid.

7.17

If you transfer to a different degree through the Standard Route, an APL previously granted from a named course may be used as *one unnamed 100 course* if the named course is not available on the degree you are transferring to.

Credit awarded

7.18

Credits are awarded for named courses. However, if you are transferring to a degree through the Standard Route you may claim credit for *one unnamed 100 course* if you have previously passed a 100 course which is not available on the degree you are transferring to (where the degree structure allows). If you are credited with *one unnamed 100 course*, it will be placed at the point marked by the black diamond symbol (◆) on the individual degree structures. Credits for named and unnamed courses may be used to meet prerequisites.

7.19

If you transfer you will not be allowed to enter or re-enter for a course (or equivalent course) that you have previously passed and received credit for. The mark you achieved when you passed the course will count towards the final classification of degree.

Treatment of failed courses with attempts remaining

7.20

If you have failed a course and have attempts remaining, you must carry the course and the attempts with you if it is compulsory on the degree you are transferring to.

If you have failed a course which is available as an optional course (either from a list or from a Selection group) on the degree you are transferring to, you can either:

- carry and retake the course (up to the maximum three attempts). You will be allowed the same remaining number of attempts at the course, or
- discard the course and register for an alternative optional course.

Failed courses which are not available on the degree you are transferring to must be discarded.

The rules for discarding courses are in paragraphs [7.37 - 7.46](#).

Treatment of failed courses with no attempts remaining

7.21

If you have failed a course at the third attempt, this may affect your ability to transfer. Permission to transfer will depend on the following conditions, as applicable:

To transfer to a Standard Route degree:

- You will not be able to transfer to a degree where the failed course is a prerequisite for a compulsory course.
- If the failed course is a compulsory course on the degree you want to transfer to, you must carry it forward to the new degree (subject to point i. above). This is only allowed if you can also meet all the other requirements for the degree. The course will count towards the total number of courses that must be taken to meet the requirements of the degree, and the most recent mark obtained in the failed course may count towards the degree classification.
- If the failed course is available as an option on the degree you want to transfer to, you may either:
 - discard the failed course and take a different or alternative course, or
 - carry the failed course to the new degree. This is only allowed if you can also meet all other requirements for the degree.

If you choose to carry the failed course, it will count towards the total number of courses that must be taken to meet the requirements of the degree, and the most recent mark obtained in the failed course may count towards the degree classification.

To transfer to a Graduate Entry Route degree:

- You will not be able to transfer to a degree where the failed course is a compulsory course. No failed courses may be carried forward on transfer to a different degree and must be discarded.

Transfer to an EMFSS degree from the LLB degree

7.22

If you are registered for the LLB degree but want to register for an EMFSS degree instead, you must contact us via your Student Portal. To be eligible for an EMFSS degree you will need to meet the entrance requirements and may be asked to provide additional information.

7.23

If you have passed courses on the LLB degree, you may apply to be awarded credits where they can be placed on the degree structure, but this will be strictly at our discretion. Credits will only be awarded for 100 level courses (i.e. courses in [Selection group F2](#)). If you have failed courses on the LLB, these will not be transferred to your record on an EMFSS degree.

Moving from the LLB to BSc Accounting with Law or BSc Management with Law

7.24

If you have attempted the first year courses of the LLB and then wish to cancel your registration and register for the BSc Accounting with Law or BSc Management with Law, the following options are available:

- If you were registered on the LLB (Old Regulations only) and you have achieved an overall result of 'fail' from the courses available in [Selection Group F2](#), you may apply to register on the BSc Accounting with Law or BSc Management with Law, but will not be awarded any credit. When you take these courses as part of the BSc Accounting with Law or BSc Management with Law, they will be treated as first attempts.
- If you are registered for the LLB and have passed all of the courses available in [Selection Group F2](#) you may apply to register on the BSc Accounting with Law or BSc Management with Law with credit for up to three full courses depending on the programme to which you transfer. We will decide the amount of credit you will receive and will make this decision on a case by case basis.
- If you are registered for the LLB but you have failed one of the courses available in [Selection Group F2](#) you may apply to register on the BSc Accounting with Law or BSc Management with Law with credit for up to two full courses. We will decide the amount of credit you will receive and will make this decision on a case by case basis.

Transfer to an EMFSS degree from other programmes

7.25

If you are registered for a programme other than in the fields of Economics, Management, Finance and the Social Sciences you may apply to transfer to an EMFSS degree through the Standard Route or Graduate Entry Route, provided that you meet the entrance requirements.

Transfer between the Graduate Diplomas/Diplomas for Graduates

7.26

You can apply to transfer between Graduate Diplomas/Diplomas for Graduates provided that:

- you do not have to discard more than one full course in total which you have previously passed, and
- you have not failed, at the final attempt, a course which is compulsory (and has no alternatives) for the programme you want to transfer to, and
- you satisfy the entrance requirements for the programme you want to transfer to.

If you are transferring from the Graduate Diploma in International Relations/Diploma for Graduates (International Relations) you must ensure that you are able to satisfy the mathematical programme specific entrance requirements needed for all the other Graduate Diplomas. For entrance requirements, see the Requirements tab on your intended [Graduate Diploma programme](#).

If you are transferring to the Graduate Diploma in Mathematics, you will need to meet the additional programme-specific entrance requirements given in regulation [7.6](#). You are also advised that although this is not a formal entrance requirement, it is your responsibility to ensure that before starting this programme your understanding of mathematics is already at least at the standard of first year undergraduate degree study in mathematics and includes multivariate calculus.

If you are transferring to the Graduate Diploma in Economics or are planning on taking 200 or 300 level courses with the prefix EC, you are advised that although not a formal entrance requirement, it is your responsibility to ensure that your understanding of economics is already at the standard of first year undergraduate degree study in economics before commencing your studies.

7.27

You must apply to us if you want to transfer between Graduate Diplomas/Diploma for Graduates. If you are registered on a Diploma for Graduates and want to transfer, you will be allowed to transfer to the new award title of Graduate Diploma only.

Credits awarded

7.28

If you transfer between the Graduate Diplomas/Diplomas for Graduates you will be credited with courses previously passed which are the same as (or equivalent to) those listed in the structure of the relevant diploma, as long as the transfer takes place within the maximum period of registration.

See [Appendix A](#) for the programme structures.

7.29

If you cannot be credited with a course or retake a course on transfer because it is not available (and has no equivalent course) on the Graduate Diploma that you are transferring to, this course must be discarded.

The rules for discarding courses are in paragraphs [7.37 - 7.46](#).

Treatment of previously failed courses

7.30

If you transfer between the Graduate Diplomas/Diplomas for Graduates, you must carry any fails with you if the courses are compulsory and have no alternatives on the programme you are transferring to.

Failed courses that have alternative options available on the programme you are transferring to can either:

- be carried and retaken (provided you have not exhausted the maximum two examination attempts), or
- be changed to an alternative course, carrying the remaining number of examination attempts at the course.

Failed courses which are not available on the Graduate Diploma you are transferring to must be discarded.

Transfer to a Graduate Diploma from a degree

7.31

You cannot transfer to a Graduate Diploma from a degree. To register for a Graduate Diploma, you must cancel your registration, apply to register afresh and meet the relevant entrance requirements. If your application is approved, you will not be allowed to carry passes or fails from your previous registration.

Transfer to the Certificate of Higher Education in Social Sciences from a degree or the Access route

7.32

If you are registered on an EMFSS degree or were previously registered on the Access route, and have made an attempt at the examination for one or more courses, you will not be allowed to transfer your registration to the Certificate of Higher Education in Social Sciences.

If you have not made an attempt at an examination and can meet the entrance and attendance requirements for the Certificate of Higher Education in Social Sciences, you may apply to transfer.

7.33

To register for the Certificate of Higher Education in Social Sciences when transfer is not allowed, you must cancel your registration and apply to register again, and will also need to meet the relevant entrance requirements. If you are allowed to register again in this way, you will not be allowed to carry any passes or fails from your previous registration.

Transfer to the Diploma in Economics or Diploma in Social Sciences from any other EMFSS programme

7.34

Transfer to the Diploma in Economics or Diploma in Social Sciences is not allowed, as these programmes are being withdrawn.

Transfer to the Certificate of Higher Education in Social Sciences from a Graduate Diploma/Diploma for Graduates

7.35

If you registered for a Graduate Diploma/Diploma for Graduates you will not be allowed to transfer your registration to the Certificate of Higher Education in Social Sciences.

7.36

To register for the Certificate of Higher Education in Social Sciences, you must cancel your registration for the Graduate Diploma/Diploma for Graduates, apply to register again and meet the relevant entrance requirements. If you are allowed to register again in this way, you will not be allowed to carry credit for any courses previously passed or to carry any failed attempts at courses from your previous registration.

Discarding and reviving courses on transfer

7.37

If you transfer between the degrees, between the Graduate Diplomas/Diplomas for Graduates, or from the Certificate of Higher Education in Social Sciences or one of the Diplomas to a degree, you may have to discard certain courses on transfer.

7.38

If you discard a passed course on transfer to another programme, you will be able to continue to use that course to meet the prerequisite requirements of other courses.

7.39

A course must be discarded if it:

- cannot be credited, or
- cannot be retaken on transfer because there is no option to take it (or no equivalent course available which can be credited) on the programme you are transferring to.

7.40

For students transferring between or to degrees only:

You cannot discard passed courses unless you are transferring. Permission to discard both passed and failed courses depends on the structure of the degree that you plan to transfer to as follows:

- You will not be allowed to discard any course (either passed or failed) that is compulsory on the degree you are transferring to.
- You will not be allowed to discard or change any single passed half course if it can be paired with another half course on the degree you are transferring to. If it cannot be paired then you must contact us for permission to discard it.
- You will not be allowed to discard or change a passed course that is one of two named course options at a point on the degree.
- You may discard a failed course that is one of two named course options at a point on the degree, and take the other named option.

If the course is not named on the programme structure but is available (for example as an option in a Selection group), you may choose whether to transfer or discard the course, as long as you do not discard more than three full passed courses (or equivalent) in total.

7.41

For Graduate Diploma/Diploma for Graduates students only:

You may discard one full course only. You will not be allowed to discard any course that is available on the Graduate Diploma that you are transferring to.

7.42

Discarded courses will not count towards the total number of courses that you are required to take for the programme you are registered on, and will not contribute towards the classification/grading calculation unless the course is revived in a later transfer.

7.43

Discarded courses may normally be revived in later transfer as follows:

- A passed course which has been discarded must be revived if you transfer to a degree or Graduate Diploma which that course is available on.
- A failed course which has been discarded must be revived if it is compulsory and has no alternatives on the degree or Graduate Diploma you are transferring to. You will be allowed the same remaining number of attempts.
- A failed course which has been discarded and which is not compulsory on the degree or Graduate Diploma you are transferring to can either be revived or, where possible, changed to another option.
- For degrees through the Standard Route only: if you transfer to a degree where a course is compulsory and you have discarded APL for that course previously, the APL must be

revived. This can only be done in line with the maximum four APL courses that are allowed on a degree.

7.44

A course that has been revived will no longer count towards the total permitted number of discarded courses.

7.45

When you pay your continuing registration fee and when you make an examination entry you must advise us if you are reviving any previously discarded courses.

7.46

If you transfer from the Certificate of Higher Education in Social Sciences or one of the Diplomas, you must write to us through the Student Portal if you are reviving any previously discarded courses when you pay the continuing registration fee.

Appendix A – Structure of the programmes – Degrees

Course codes are given next to the course title in this appendix of the Programme Regulations. Course codes show the subject area, course level and the unique course number. It is explained in the following example:

AC1025 Principles of accounting

AC - shows the subject area

1 - shows that this is a 100 level course

025 - shows the number of the course

The subject areas are:

AC - Accounting

DV - Development

EC - Economics

FN - Finance

GY - Geography

IR - International Relations

IS - Information Systems

LA - Law

MN - Management

MT - Mathematics

PS - Politics

SC - Sociology

SP - Social Psychology

ST - Statistics

All courses listed on the structures are full courses unless indicated otherwise. Rules and exclusions concerning course choice are given in the syllabuses in the Course Information Sheets. These can be accessed by clicking the link on the course name, which will open the document in PDF format.

Should you need to check the equivalency of course codes from before 2011-12, please visit www.londoninternational.ac.uk/new_codes

8. [AC3097](#) [Management accounting](#) (AC1025)
9. One course (or two half courses) from Selection groups [F1](#), [F2](#), [L](#) or [M](#) ⁴

Notes

All students

You may not pair a 100 half course with a 200 or 300 half course.

¹ *Legal system and method* is the new name for *Common law reasoning and institutions*.

² From 2016-17, *Commercial law* has been changed from a 300 course to a 200 course, and has a new course code of LA2017. Previous attempts at the course as LA3017 will be carried over.

³ All students must now have passed the prerequisite LA1040 *Contract law* before taking LA2017 *Commercial law*. The only exceptions to this are:

- if you are transferring from the Old Regulations in 2016-17; or
- if you have attempted *Commercial Law* in a previous year and are retaking the assessment.

This prerequisite will be enforced for all students from 2017-18.

⁴ If you registered for a course from Selection groups A or B at this point in 2014-15 or earlier, you will be allowed to continue your registration on that course

Standard Route degree students

◆ You may include APL awarded for one full 100 course (or two half courses) at this point in the degree structure.

OR

◆ If you transfer to this degree with a pass in a 100 course (or two half courses) which is not available on this degree, you may place the course at this point in the degree structure and receive credit for it.

If you complete the requirements for the award and have attempted any six law courses (any course in Selection group F2 or L) plus six non-law courses (as appropriate), you will be awarded the BSc Accounting **and** Law. If you have met the requirements and attempted few than six law courses, you will be awarded the BSc Accounting **with** Law.

8. ▲ [FN3023](#) [Investment management](#) (FN1024)
9. One 300 course (or two half courses) from any [Selection group](#)

Notes

All students

▲ You can only take EC1002 *Introduction to economics* at the same time as or after MT105A *Mathematics 1* and ST104A *Statistics 1*, not before.

▲ You can only take FN3023 *Investment management* after or at the same time as FN3092 *Corporate finance*, not before.

Standard Route degree students only

¹ If you registered for a 200 course at point 10 in 2014-15 or earlier, you will be allowed to continue your registration on that course.

² If you registered for a 300 course from Selection groups E or M at point 10 in 2015-16 or earlier, you will be allowed to continue your registration on that course.

▲ You can only take EC2020 *Econometrics* at the same time as or after ST104B *Statistics 2* and MT105B *Mathematics 2*, not before. You will also need to have passed the prerequisites of EC1002 *Introduction to economics*, MT105A *Mathematics 1* and ST104A *Statistics 1*. However, if you have passed MT1174 *Calculus*, you do not need to take MT105A or MT105B, but must still meet the other prerequisites and co-requisites. MT1174 remains a prerequisite option and so must be passed before taking this course.

◆ You may include APL awarded for one full 100 course (or two half courses) at this point in the degree structure.

OR

◆ If you transfer to this degree with a pass in a 100 course (or two half courses) which is not available at this degree, you may place the course at this point in the degree structure and receive credit for it.

Graduate Entry Route degree students only

³ If you have registered for EC2020 *Econometrics* at point 6 of the Graduate Entry Route in a previous year, you will be allowed to continue with your registration for that course up to the maximum number of attempts, without meeting the new co-requisites of MT105B and ST104B. You will still need to meet the prerequisites.

Notes for Paths A and B

All students

You may not pair a 100 half course with a 200 or 300 half course.

¹ LA1031 *Legal system and method* is the new name for LA1031 *Common law reasoning and institutions*.

² If you have passed MN1107 *Introduction to business and management* you can use this course in place of MN1178.

³ From 2016-17, *Commercial law* has been changed from a 300 course to a 200 course, and has a new course code of LA2017. Previous attempts at the course as LA3017 will be carried over.

All students must now have passed the prerequisite LA1040 *Contract law* before taking LA2017 *Commercial law*. The only exceptions to this are:

- if you are transferring from the Old Regulations in 2016-17; or
- if you have attempted *Commercial Law* in a previous year and are retaking the assessment.

This prerequisite will be enforced for all students from 2017-18.

Standard Route degree students

◆ You may include APL awarded for one full 100 course (or two half courses) at this point in the degree structure.

OR

◆ If you transfer to this degree with a pass in a 100 course (or two half courses) which is not available on this degree, you may place the course at this point in the degree structure and receive credit for it.

If you complete the requirements for the award and have attempted any six law courses (any course in Selection group F2 or L) plus six non-law courses (as appropriate), you will be awarded the BSc Management **and** Law. If you have met the requirements and attempted few than six law courses, you will be awarded the BSc Management **with** Law.

8. One 200 or 300 course from [Selection group L](#)
9. One 300 ⁵ course from [Selection group S](#)

Notes

All students

A 100 half course may not be paired with a 200 or 300 half course.

¹ LA1031 *Legal system and method* is the new name for LA1031 *Common law reasoning and institutions*.

² if you have passed SC1021 *Principles of sociology* you can use this course in place of SC1179.

³ SC1158 *Reading social science* (half course) will be withdrawn at the end of the 2016-17 academic year, and this year is for resits only. If you have not completed this course you will need to transfer to the replacement full course SC1185 *Reading social science* from 2017-18.

If you are required to transfer over to SC1185 in 2017-18 and onwards and have passed ST104A *Statistics 1*, you will be able to place this course at another point in the structure if space is available, otherwise it will need to be discarded.

⁴ Notice has been served on these courses. The last year that you will be able to register for them as a first attempt at the examination will be in 2017-18, with final resits in 2018-19.

⁵ If you have been registered for a 200 course from Selection group S at point 11 of the Standard Route or point 9 of the Graduate Entry Route in a previous academic year, you will be allowed to continue your registration for that course.

Standard Route degree students

◆ You may include APL awarded for one full 100 course (or two half courses) at this point in the degree structure.

OR

◆ If you transfer to this degree with a pass in a 100 course (or two half courses) which is not available on this degree, you may place the course at this point in the degree structure and receive credit for it.

Appendix A – Structures of the programmes – Graduate Diplomas/Diplomas for Graduates

All courses listed are full courses except where indicated otherwise. Details of any exclusions (i.e. any courses which cannot be taken together) are given in the individual syllabuses. These can be accessed by clicking on the course title.

If you have completed a degree or another Graduate Diploma/Diploma for Graduates you will **not** normally be allowed to choose a course on the new programme that you have already passed on the previous programme. If you have already passed a course that is compulsory on the structure of the new programme, you will be required to apply to the [LSE Office for University of London International Programmes](#) to substitute this course with another from a limited selection group.

Notes

¹ A number of law courses have changed from FHEQ level 6 (300 level) courses to FHEQ level 5 (200 level) courses. These are:

From 2016-17:

- *Equity and trusts* (previously LA3002, now LA2002)
- *Administrative law* (previously LA3008, now LA2008)
- *Commercial law* (previously LA3017, now LA2017)
- *Family law* (previously LA3019, now LA2019)

- *EU law* (previously LA3024, now LA2024)
- *International protection of human rights* (previously LA3029, now LA2029)

From 2015-16:

- *Tort law* (previously LA3001, now LA2001)

If you have passed any of these courses already you will keep the existing pass with the same level and course code. If you are taking one of these courses for the first time, or who have failed it in a previous sitting and have attempts left, you will be registered on the 200 level course, and will keep any previous attempts at the course on your record.

² All students must now have passed the prerequisite LA1040 *Contract law* before taking LA2017 *Commercial law*. The only exceptions to this are:

- if you are transferring from the Old Regulations in 2016-17; or
- if you have attempted *Commercial Law* in a previous year and are retaking the assessment.

This prerequisite will be enforced for all students from 2017-18.

³ Registration for LA3012 *History of English Law* has been discontinued and no new registrations for this course will be accepted. The last examinations, including resits, will be held in 2016-2017. To view the syllabus you will need to log in to your VLE.

Notes

¹ This course will be available for resits only for the final time in 2016-17.

² Notice has been served on these courses. The last year that you will be able to register for them as first attempts at the examination will be in 2017-18, with final resit examinations in 2018-19.

Appendix B – Accreditation of Prior Learning

Accreditation of prior learning (APL) has previously been called ‘exemption’ by the University of London International Programmes.

APL is the recognition of previously acquired learning which can be mapped against particular learning outcomes of courses within a programme. If you are awarded APL for a specific course, you will be exempt from taking this course. It means that you are considered to have completed the course for the purposes of progression within the programme. The mark obtained for a qualification for which APL has been awarded will not be carried forward to your record and will not contribute towards the award.

The University reserves the right not to award APL if the qualification of the respective professional body or institution changes after publication.

The Table of Automatic Accreditation of Prior Learning can be found on the University of London International Programmes website:

www.londoninternational.ac.uk/sites/default/files/documents/emfss_automatic_apl_table_regs.pdf

Appendix D – Scheme of award

Introduction

The guidelines presented below show the main characteristics of the schemes used for the assessment of students within the Economics, Management, Finance and the Social Sciences (EMFSS) programmes, and the criteria used when classifying degree students and grading Graduate Diploma/Diploma for Graduates students at the end of their studies. This information is necessarily abbreviated and it does not cover all special cases that the Board of Examiners may have to consider.

The Board of Examiners retains the right to deviate from, or suspend, any part of these guidelines for good reason and in the interest of academic standards and/or fairness to students.

The guidelines are divided into two sections – those that apply to all programmes (concerning the award of marks for individual courses, failed courses and resits and the pairing of half courses), and those that are programme-specific (concerning eligibility for the award, and the classification and grading schemes).

Guidelines applying to all programmes

1. Award of marks for courses

1.1

The marking standards for all courses are the same as for College-based students of the University of London sitting equivalent degree examinations.

1.2

100, 200 and 300 courses are marked to the same standard. For degree classification and Graduate Diploma/Diploma for Graduates grading purposes, 200 and 300 courses normally carry more weight than 100 courses.

1.3

The Examiners will determine a percentage mark for each course attempted based on the following scales:

Degree Class equivalent	Graduate Diploma/Diploma for Graduates	Percentage
First Class Honours	Distinction	70 – 100
Upper Second Class Honours	Merit	60 – 69
Lower Second Class Honours	Pass	50 – 59
Third Class Honours	Pass	40 – 49
Fail	Fail	0 – 39

2. Failed courses and resits

2.1

If you are not eligible for award of the degree or Graduate Diploma/Diploma for Graduates, you are required to make a further attempt at all failed courses (provided the maximum number of attempts has not been exhausted), or to substitute failed courses with alternative courses where permitted in the relevant programme structure.

2.2

Once you are eligible for award of the degree or Graduate Diploma/Diploma for Graduates, you will not be permitted to make any further attempts at any failed courses or to substitute any failed courses with alternative courses, even if you have not reached the maximum number of attempts allowed.

2.3

In all cases, marks are based on those obtained at the latest attempt at the relevant course.

3. Pairing of half courses

3.1

Half courses are paired and averaged (rounded up to a whole number) to produce marks for classification/grading purposes.

3.2

A fail in one half course of a pair counts as a half course fail in assessing the number of courses passed.

3.3

100 half courses cannot be paired with 200 or 300 half courses.

100 courses

3.4

Courses are paired according to the following criteria in the order given.

1. Any two 100 half courses named together at one point in the programme structure are paired.
2. If both have been taken, ST104A *Statistics 1* + ST104B *Statistics 2* are paired.
3. If both have been taken, MT105A *Mathematics 1* + MT105B *Mathematics 2* are paired.
4. After the above criteria have been applied, any remaining 100 half courses are paired according to the marks awarded, as follows: the two half courses with the highest marks are paired, then the two with the next highest marks.

200 and 300 courses

3.5

Courses are paired according to the following criteria in the order given.

1. Any two 200 or 300 half courses named together at one point in the programme structure are paired.

2. If there are precisely two half courses from any particular Selection group, these are paired. If there are more than two half courses from a Selection group, this rule does not apply to that Selection group and the criteria below are applied.
3. If both have been taken, ST3133 *Advanced Statistics: distribution theory* + ST3134 *Advanced Statistics: statistical inference* are paired.
4. After the above criteria have been applied, any remaining 200 or 300 half courses are paired according to the marks awarded, as follows: the two half courses with the highest marks are paired, then those with the next highest marks, repeating until all half courses are paired.

Degrees through the Standard Route only

3.6

If you have failed one half course of a pair and are eligible for award of the degree, then the mark for that pair of half courses will be the average of the marks obtained. This may result in either a pass or a fail mark for the course as a whole. A half course fail will count on its own, along with any other fail marks, for determining the class band of the degree as a whole.

See regulations [5.8 - 5.10](#) in Appendix D for how course and half course failures can affect the class band.

3.7

Where APL has been granted for a half course of a pair, the mark for the pair will be the mark obtained in the half course taken.

4. Mitigating circumstances during the examination session

See the [mitigating circumstances](#) page on our website for details of what mitigating circumstances are and how to submit a request to us.

4.1

If you enter one or more examinations and experience difficulties immediately before or during the examination period through illness or other adequate cause, you should immediately inform the Examinations Office, and provide a supporting medical certificate or other official documentation for the courses affected. The documentation must be received within the time period specified (see 'Mitigating circumstances' in Section 10 of the [General Regulations](#)).

4.2

If, despite difficulties as described in 4.1, you have attempted and passed your examination(s), the pass received will stand.

4.3

If you have attempted but failed an examination because of difficulties as described in 4.1, and the documentation you provided is accepted by the Board of Examiners, you may be given a result of *Attempt not to count* for that examination. The attempt will not count and you will be allowed to take the paper again without academic penalty. The attempt will not count towards the maximum number of attempts permitted.

4.4

If you have not attended an examination because of difficulties as described in 4.1, and the documentation you have provided is accepted by the Board of Examiners, you may be given a result of *Absence certified* for that examination. The attempt will not count and you will be allowed to take the paper again without academic penalty. The attempt will not count towards the maximum number of attempts permitted.

4.5

Although a course which receives a result of *Absence certified* or *Attempt not to count* is not counted as one of the permitted attempts, it will be treated as if it is a resit in terms of the number of courses you are allowed to sit in future examination sessions.

4.6

If you receive a result of *Attempt not to count* or of *Absence certified* for a course which is a prerequisite for a 200 or 300 course, you may take the 200 or 300 course at the same time as retaking the prerequisite course provided all other prerequisites are satisfied.

Special circumstances for Standard Entry Route degree students entering to complete their programme of study in the same year

4.7

If you registered for the degree in 2015-16 or earlier:

If you have mitigating circumstances accepted for one or two examinations but are otherwise eligible for the award of a degree through the Standard Entry Route, the Board of Examiners will take this into consideration and may, in exceptional circumstances, classify you on the marks available. When reporting the special circumstances, you may also apply to receive an Aegrotat degree subject to the Regulations, or to re-enter the examinations at a later date.

If your mitigating circumstances are accepted but the marks for two courses are fails and you want to accept the award you will drop a class of award, as outlined in regulations [5.8 - 5.11](#) of this appendix.

4.8

If you registered for the degree in 2016-17 or later:

If you have mitigating circumstances accepted for one examination but are otherwise eligible for the award of a degree through the Standard Entry Route, the Board of Examiners will take this into consideration and may, in exceptional circumstances, classify you on the marks available. When reporting the special circumstances, you may also apply to receive an Aegrotat degree subject to the Regulations, or to re-enter the examination at a later date.

Programme-specific guidelines – degrees through the Standard Route

5. Eligibility for the award of a degree through the Standard Route

5.1

For students registered for a degree in 2015-16 and earlier:

The Board of Examiners will consider you eligible for award of the degree through the Standard Route when the following three conditions have all been fulfilled:

1. You must have attempted every element of the assessment for 12 full courses or the equivalent, as specified in the structure for the degree (any APL awarded will count towards the 12 courses attempted).
2. You must have passed at least 10 full courses or the equivalent (any APL awarded will count towards the total of 10 courses).
3. You must have resat all failed courses from previous years for which the maximum number of attempts has not been exhausted, or, where the structure of the degree permits, substituted an alternative for a failed course.

For students registered for a degree for the first time in 2016-17 (including students who have transferred to a degree from another programme):

The Board of Examiners will consider a student eligible for award of the degree through the Standard Route when the following three conditions have all been fulfilled:

1. You must have attempted every element of the assessment for 12 full courses or the equivalent, as specified in the structure for the degree (any APL awarded will count towards the 12 courses attempted).
2. You must have passed at least 11 full courses or the equivalent (any APL awarded will count towards the total of 11 courses).
3. You must have resat all failed courses from previous years for which the maximum number of attempts has not been exhausted, or, where the structure of the degree permits, substituted an alternative for a failed course.

5.2

In the year in which you intend to be awarded a degree, you must, in order to meet condition 3 in 5.1, resit the examination for any failed course from previous years which you are counting towards the degree and for which the maximum number of attempts has not been exhausted, or, if the structure of the degree permits, substitute it with an alternative course.

5.3

When considering your eligibility for award of the degree, the Board of Examiners will give special consideration if you have been absent from one or more examinations through illness or other adequate cause.

5.4

Once the Board of Examiners decides that you are eligible for award of the degree, the degree will be awarded and you will not be permitted to make any further attempts at any failed courses or to substitute any failed courses with alternative courses.

If you are registered on a degree from 2015-16 and earlier, once you have attempted 12 courses and passed 10, you will need to contact the University and advise if you want to continue with your registration and make further attempts at one or both of the failed courses.

5.5

Once the award and classification of the degree have been confirmed by the Board of Examiners, you cannot refuse or decline the award or its classification. The decision of the Board of Examiners is final.

5.6

Failure in up to one full course or the equivalent will normally not affect your classification.

5.7

If you have progressed from the Certificate of Higher Education in Social Sciences, the Diploma in Economics, the Diploma in Social Sciences or Access route, or have transferred from another EMFSS degree programme, you will carry the marks already awarded in line with the Regulations.

For students registered on a degree in 2015-16 and earlier only

5.8

Failure in two full courses will normally lead to an award one class lower than that indicated by your marks according to the classification scheme (given in paragraph 6.4 below).

5.9

Failure in one and a half courses where the half course is not paired to produce a pass will normally lead to an award one class lower than that indicated by your marks according to the classification scheme (given in paragraph 6.4 below).

5.10

Failure in one and a half courses where the half course is paired to produce a pass will not normally lead to an award one class lower than that indicated by your marks according to the classification scheme (given in paragraph 6.4 below).

5.11

If your marks indicate a Third Class Classification, and the above rule concerning 1 and a half or 2 fails under 5.8 and 5.9 are applied, then a Pass Classification will be awarded, provided the Board of Examiners is satisfied that all other regulations have been fulfilled.

6. Degree classification

6.1

200 and 300 courses normally carry more weight than 100 courses. Marks for 200 and 300 courses are counted individually and in some cases as an average, depending on the number of 100 courses taken and the number of APLs granted. 100 courses count for up to two marks only.

6.2

If you are eligible for the award of a degree through the Standard Route, you will be classified according to the classification scheme (given in 6.4 below) on the basis of nine marks, and, where appropriate, the aggregate of those nine marks.

6.3

The nine marks on which the classification is based are drawn from the following.

1. The marks for all 200 and 300 courses considered individually.
2. If eight 200 and 300 courses and four 100 courses have been attempted, the *ninth* mark is the average of the best three 100 courses.
3. If seven 200 and 300 courses and five 100 courses have been attempted, the *eighth* mark is the average of the best two 100 courses, and the *ninth* mark is the average of the next best two 100 courses.
4. Where you have been granted APL from one or more 100 courses and have taken 100 courses to bring your total of granted APL and 100 courses to four then:
 - a. if you have been granted APL for one course, the *ninth* mark is calculated in the usual way
 - b. if you have been granted APL for two courses, the *ninth* mark is the average of the two 100 courses taken
 - c. if you have been granted APL for three courses, the *ninth* mark is the 100 course taken
 - d. if you have been granted APL for four courses, the *ninth* mark is the average of all the 200 and 300 courses taken.
5. Where you have been granted APL from one or more 100 courses and have taken 100 courses to bring your total of granted APL and 100 courses to five then:
 - a. if you have been granted APL for one course, the *eighth* mark is the average of the best two 100 courses and the *ninth* mark is the average of the remaining two 100 courses
 - b. if you have been granted APL for two courses, the *eighth* mark is the average of the best two 100 courses taken, and the *ninth* mark is the remaining 100 course taken
 - c. if you have been granted APL for three courses, both the *eighth* and *ninth* marks are the marks of the two 100 courses taken
 - d. if you have been granted APL for four courses, the *eighth* mark is the mark of the single 100 course taken and the *ninth* mark is the average of all the 200 and 300 courses taken.

6.4

The minimum requirements for the classification scheme, based on the nine marks used for classification, are as follows:

First Class Honours	Awarded to students who, of the nine marks being used for classification, have either five first class marks OR four first class marks and an aggregate of 590 .
Upper Second Class Honours	Awarded to students who, of the nine marks being used for classification, have either five upper second class marks OR four upper second class marks and an aggregate of 515 .
Lower Second Class Honours	Awarded to students who, of the nine marks being used for classification, have either five lower second class marks OR four lower second class marks and an aggregate of 440 .
Third Class Honours	Awarded to students who, of the nine marks being used for classification, have five third class marks.
Pass Classification	Only awarded to students having passed 10 or 10½ courses and therefore have been classified one class lower as set out in 5.7, 5.8 and 5.10 above.

Accounting with Law

6.5

If you have completed the requirements for the award and have attempted any six law courses (any course in Selection group F2 or L) plus six non-law courses (as appropriate) you will be awarded the BSc Accounting and Law. All other students will be awarded the BSc Accounting with Law.

Management with Law

6.6

If you have completed the requirements for the award and have attempted any six law courses (any course in Selection group F2 or L) plus six non-law courses (as appropriate) you will be awarded the BSc Management and Law. All other students will be awarded the BSc Management with Law.

Degrees through the Graduate Entry Route

7. Eligibility for the award of a degree through the Graduate Entry Route

7.1

The Board of Examiners will consider you eligible for award of the degree through the Graduate Entry Route when you have attempted every element of the assessment for nine full courses or the equivalent, and passed all nine full courses or the equivalent.

7.2

If you have progressed from the Certificate of Higher Education in Social Sciences, Diploma in Economics, the Diploma in Social Sciences or Access route, or have transferred from another EMFSS degree programme, you will carry the marks already awarded in line with the Regulations.

8. Degree classification

8.1

200 and 300 courses normally carry more weight than 100 courses. Marks for 200 and 300 courses are counted individually. 100 courses will count for two marks. If more than two 100 courses are taken, the marks for the 100 courses will be subject to an averaging process described below to create two marks to be used for classification.

8.2

If you are eligible for the award of a degree through the Graduate Entry Route having attempted, and passed in, nine full courses or the equivalent, you will be classified on the marks treated as indicated in 8.3 below, according to the classification scheme (given in 8.4 below) and, where appropriate, the aggregate of all nine individual marks.

8.3

The marks on which the classification is based are determined as follows:

1. If two 100 courses have been attempted, the marks for those courses will count individually. The marks for the seven 200 and 300 courses attempted will also count individually.
2. If three 100 courses have been attempted, the lowest two marks will be averaged and the third mark will count individually. The marks for the six 200 and 300 courses will count individually.
3. If four 100 courses have been attempted, the highest two marks will be averaged and the remaining two marks averaged. The marks for the five 200 and 300 courses will count individually.

8.4

The minimum requirements for the classification scheme are as follows.

First Class Honours	Awarded to students who, of the marks being used for classification, have either five first class marks OR four first class marks and an aggregate of 590.
Upper Second Class Honours	Awarded to students who, of the marks being used for classification, have either five upper second class marks OR four upper second class marks and an aggregate of 515.
Lower Second Class Honours	Awarded to students who, of the marks being used for classification, have either five lower second class marks OR four lower second class marks and an aggregate of 440.
Third Class Honours	Awarded to students who, of the marks being used for classification, have five third class marks.

Graduate Diplomas/Diplomas for Graduates

9. Eligibility for the award of a Graduate Diploma or Diploma for Graduates

9.1

If you have attempted every element of the assessment for four full courses or the equivalent, and passed all four full courses or the equivalent, you will be eligible for the award of a Graduate Diploma or Diploma for Graduates.

9.2

If you are registered on a Diploma for Graduates and want to transfer to a Graduate Diploma for the same award name, you must advise the University before you enter for examinations in the year you intend to complete.

9.3

The award title (Graduate Diploma or Diploma for Graduates) that you are registered on at the time of being presented to the Board of Examiners for final grading will be the award title you graduate with. It is not possible to change titles after the award has been agreed by the Board of Examiners.

10. Graduate Diploma/Diploma for Graduates grading scheme

10.1

For you to be awarded a graded Graduate Diploma or Diploma for Graduates (an award with Distinction or Merit), all four marks must be 40 or higher.

10.2

You may only be awarded a graded Graduate Diploma or Diploma for Graduates if you have taken no more than one resit (of a full or half course).

10.3

The minimum requirements for the grading scheme are as follows:

Distinction	Awarded to students who have achieved one of the following sets of marks: <ul style="list-style-type: none">• three marks of 70 or above and one mark of 40 or above• two marks of 70 or above, two marks of 60 or above and an aggregate of 280.
Merit	Awarded to students who have achieved one of the following sets of marks: <ul style="list-style-type: none">• three marks of 60 or above and one mark of 40 or above• one mark of 70 or above, one mark of 60 or above and one mark of 50 or above and one mark of 40 or above• two marks of 60 or above, two marks of 50 or above and an aggregate of 240.
Pass	Awarded to all students who are eligible for award of a Diploma for Graduates as described in 9.1 above but not eligible for the award with Distinction or Merit.

Appendix E – Assessment Criteria

Mark (%)	Grade descriptor	Characteristics
90–100	First class	<p>A comprehensive and deep understanding of the subject.</p> <p>Mastery of relevant methods and techniques and an ability to deploy them with flair.</p> <p>Very extensive range and consistent accuracy of information and knowledge.</p> <p>(For qualitative subjects) Exceptional powers of analysis, argument, synthesis and insight. Considerable evidence of extensive wider reading of an appropriate nature and its application in context. Lucid and convincing argument which demonstrates an exceptional degree of independent thinking and critical insight.</p> <p>(For quantitative subjects) An outstanding ability to solve unusual and demanding questions involving application of deep and comprehensive understanding of the subject and its methods.</p> <p>Outstanding presentation and structure.</p>
80–89	First class	<p>A deep understanding of the subject.</p> <p>Mastery of relevant methods and techniques.</p> <p>Highly extensive range and consistent accuracy of information and knowledge.</p> <p>Lucid argument which demonstrates a high degree of independent thinking or critical insight (for qualitative subjects) or (for quantitative subjects) an impressive ability to solve more unusual or demanding questions involving application of deep understanding of the subject and its methods.</p> <p>Evidence of a critical approach to essential reading and an ability to apply this in context with, additionally, some evidence of wider reading.</p> <p>Excellent presentation and structure.</p>
70–79	First class	<p>A thorough understanding of the subject.</p> <p>Deft application of relevant methods and techniques.</p> <p>Extensive range and consistent accuracy of information and knowledge.</p> <p>Clear argument which demonstrates a degree of independent thinking or critical insight (for qualitative subjects) or (for quantitative subjects), a significant capacity to solve more unusual or demanding questions involving application of deep understanding of the subject and its methods.</p> <p>Evidence of a critical approach to essential reading and an ability to apply this in context with, additionally, some evidence of wider reading.</p> <p>Excellent presentation and structure.</p>

60–69	Upper second class	<p>A good understanding of the subject.</p> <p>Competent application of relevant methods and techniques.</p> <p>Wide and accurate range of information and knowledge deployed.</p> <p>Evidence of a critical approach to essential reading (mainly for quantitative subjects)</p> <p>Clear argument which may demonstrate a degree of independent thinking or critical insight (for qualitative subjects) or (for quantitative subjects) some capacity to solve more unusual or demanding questions involving application of significant understanding of the subject.</p> <p>High quality of presentation and good structure (mainly for qualitative subjects).</p>
50–59	Lower second class	<p>A reasonably good understanding of the subject.</p> <p>Knowledge of, and some application of, relevant methods and techniques.</p> <p>A standard, and largely accurate, range of information and knowledge deployed.</p> <p>May rely more on knowledge than on argument or analysis (for qualitative subjects) or may (for quantitative subjects) demonstrate ability to grapple with standard problems but limited capacity to solve more unusual or demanding questions involving application of significant understanding of the subject.</p> <p>Satisfactory quality of presentation, with good structure (mainly for qualitative subjects).</p>
40–49	Third class	<p>An acceptable demonstration of a basic understanding of and competence in the subject.</p> <p>Some knowledge of, and application of, relevant methods and techniques.</p> <p>A basic range of information and knowledge deployed, with some areas of inaccuracy.</p> <p>Arguments and analysis not fully developed.</p> <p>Evidence of essential reading.</p> <p>Acceptable quality of presentation and structure.</p>
30–39	Fail	<p>(For qualitative subjects) Superficial coverage of topics that is descriptive and flawed by many important omissions and/or significant errors.</p> <p>Some understanding evident, but no original thought or critical analysis or ability to grapple with anything other than very routine questions.</p> <p>(For qualitative answers) Disorganisation in structure and poor clarity of expression.</p> <p>Limited evidence of reading of an appropriate nature (for qualitative subjects).</p> <p>Limited competence in core basic techniques of the subject or competence only in a small part of the material (for quantitative subjects).</p>

20–29	Fail	<p>(For qualitative subjects) Little information or information that is almost entirely incorrect or irrelevant. Unacceptably poor structure and clarity. Little understanding evident.</p> <p>Little evidence of reading of an appropriate nature (for qualitative subjects).</p> <p>Very limited competence in core basic techniques of the subject (for quantitative subjects).</p>
10–19	Fail	<p>(For qualitative subjects) Very little information or information that is almost entirely incorrect or irrelevant. Extremely poor structure and clarity.</p> <p>Misunderstanding of significant areas of the syllabus.</p> <p>Very little evidence of reading of an appropriate nature (for qualitative subjects).</p> <p>No competence in most of the core basic techniques of the subject (for quantitative subjects).</p>
0–9	Fail	<p>Nothing presented or completely incorrect information or answers contain nothing at all of relevance.</p> <p>No evidence of understanding.</p> <p>No evidence of reading of an appropriate nature (for qualitative subjects).</p> <p>No competence in core basic techniques of the subject (for quantitative subjects).</p>
