PL3035	Research project 2: consolidation	6/30	Compulsory	October 2022	April/October

Sessions and modules

There are two study sessions in a year, each lasting 22 weeks, and including an assessment submission point. Sessions begin in October and April, and these starting months are given above in the Session column to represent the session span.

Modules will run according to the timetable above (subject to minimum student registrations and availability). In exceptional circumstances we may consider deferring a module to a later session, or offer a different module in its place. We will inform you of any such changes as early as possible and provide you with reasonable alternative arrangements.
